(ii) A person interested to get a prospectus may obtain from the issuer, and the issue manager(s); (iii) "If you have any query about this document, you may consult issuer, issue manager and underwriter";		

(iv) "CONSENT OF THE BANGLADESH SECURITIES AND EXCHANGE COMMISSION HAS BEEN OBTAINED TO THE ISSUE/OFFER OF THESE SECURITIES UNDER THE SECURITIES AND EXCHANGE ORDINANCE, 1969, AND THE BANGLADESH SECURITIES AND EXCHANGE COMMISSION (PUBLIC ISSUE) RULES, 2015. IT MUST BE DISTINCTLY UNDERSTOOD THAT IN GIVING THIS CONSENT THE COMMISSION DOES NOT TAKE ANY RESPONSIBILITY FOR THE FINANCIAL SOUNDNESS OF THE ISSUER COMPANY, ANY OF ITS PROJECTS OR THE ISSUE PRICE OF ITS SECURITIES OR FOR THE CORRECTNESS OF ANY OF THE STATEMENTS MADE OR OPINION EXPRESSED WITH REGARD TO THEM. SUCH RESPONSIBILITY LIES WITH THE ISSUER, ITS DIRECTORS, CHIEF EXECUTIVE OFFICER, MANAGING DIRECTOR, CHIEF FINANCIAL OFFICER, COMPANY SECRETARY, ISSUE MANAGER, ISSUE MANAGER'S CHIEF EXECUTIVE OFFICER, UNDERWRITERS, AUDITOR(S), VALUER AND/OR CREDIT RATING COMPANY (IF ANY)."

#### **(v) Risks in relation to the First Issue**

"This being the first issue of the issuer, there has been no formal market for the securities of the issuer. The face value of the securities is Tk. 10.00 (ten) and the issue price is Tk. 45.00, i.e. '4.5 times' of the face value. The issue price has been determined and justified by the issuer and the issue manager or bidding by the eligible investors as stated under the paragraph on "Justification of Issue Price" should not be taken to be indicative of the market price of the securities after listing. No assurance can be given regarding an active or sustained trading of the securities or the price after listing."

#### **(vi) General Risk**

"Investment in securities involves a degree of risk and investors should not invest any funds in this offer unless they can afford to take the risk of losing their investment. Investors are advised to read the risk factors carefully before taking an investment decision in this offer. For taking an investment decision, investors must rely on their own examination of the issuer and the offer including the risks involved. The securities have not been recommended by the Bangladesh Securities and Exchange Commission (BSEC) nor does BSEC guarantee the accuracy or adequacy of this document. Specific attention of investors is invited to the statement of 'risk factors' given on page number(s) 206-221."

#### **(vii) Esquire Knit Composite Limited's Absolute Responsibility**

"The issuer, having made all reasonable inquiries, accepts responsibility for and confirms that this prospectus contains all material information with regard to the issuer and the issue, that the information contained in the prospectus are true, fair and correct in all material aspects and are not misleading in any respect, that the opinions and intentions expressed herein are honestly held and that there are no other facts, the omission of which make this document as a whole or any of such information or the expression of any such opinions or intentions misleading in any material respect."

(a) About the industry;

Bangladesh is a developing country. Its economy is largely dependent on agriculture. However, the readymade garments (RMG) sector has emerged as a biggest earning source of foreign currency. Industries like textile, pharmaceuticals, agribusiness, jute, leather, tea, food processing etc. are contributing to the development of economy of Bangladesh. Among them, RMG has secured the top position for earning foreign currency.

RMG sector is not only contributing to the national economy but also working on human development. It contributes significantly to GDP, women endorsement, reduction of child labor, gender equality and reduction of infant mortality. In last three decades, RMG shapes itself a good apparel sourcing spot in the world. RMG sector contributes more than 13% of GDP of Bangladesh. A McKinsey survey report shows that Bangladesh will be the number one hotspot for apparel sourcing within five years.

The dramatic growth of RMG sector is due to RMG entrepreneurs, BGMEA (Bangladesh Garment Manufacturers and Exporters Association), BKMEA (Bangladesh Knitwear Manufacturers and Exporters Association), government support, GSP facility, low labor cost, effective and efficient worker etc. RMG entrepreneurs are encouraged by different tools such as quotas through the WTO, Agreement on Textiles and Clothing (ATC), Everything But Arms (EBA) and the US 2009 Tariff Relief Assistance etc. RMG sector has been providing many employment opportunities especially for women and empowering them to make a social revolution. The RMG sector helps to reduce the rate of poverty through creating job opportunities. 60% of the western brands of RMG are being exported from Bangladesh to European buyers and 40% to American buyers. [Source: [www.textilelearner.blogspot.com](http://www.textilelearner.blogspot.com)]

Growth of RMG sector has spawned a whole new set of linkage industries and facilitated expansion of many service sector activities. The RMG industry not only propelled the growth of spinning, weaving, dyeing and finishing industries, production of accessories and spare parts, but also rendered large externalities by contributing to other economic activities like banking, insurance, real estate, packaging, hotels and tourism, recycling, consumer goods, utility services and transportations.

6. The Stockbroker/Merchant Banker shall prepare category wise lists of the applicants containing Customer ID, Name, BO Account Number and Number of Securities applied for, and within 03 (three) working days from the cut-off date, send to the respective Exchange, the lists of applicants in electronic (text format with tilde '~' separator) format, the certificate(s) issued by its banker, the drafts **and certificates** received from Non-resident Bangladeshi (NRB) and Foreign applicants and a copy of the list containing the draft information.
7. **On the next working day**, the Exchanges shall provide the Issuer with the information received from the Stockbroker/Merchant Bankers, the drafts **and certificates** submitted by Non-resident Bangladeshi (NRB) and Foreign applicants and the list containing the draft information. Exchanges shall verify and preserve the bankers' certificates in their custody.
8. The application/buy instructions shall be preserved by the Stockbroker/Merchant Bankers up to 6 months from listing of the securities with exchange.

**Step-3 (Issuer)**

9. The Issuer shall prepare consolidated list of the applications and send the applicants' BOIDs in electronic (text) format in a CDROM to CDBL for verification. The Issuer shall post the consolidated list of applicants on its website and websites of the Exchanges. CDBL shall verify the BOIDs as to whether the BO accounts of the applicants are active or not.
10. **On the next working day**, CDBL shall provide the Issuer with an updated database of the applicants containing BO Account Number, Name, Addresses, Parents' Name, Joint Account and Bank Account information along with the verification report.
11. After receiving verification report and information from CDBL, the Issuer shall scrutinize the applications, prepare category wise consolidated lists of valid and invalid applications and submit report of final status of subscription to the Commission and the Exchanges **within 10 (ten) working days** from the date of receiving information from the Exchanges.
12. The Issuer and the issue manager shall conduct category wise lottery with the valid applications **within 03 (three) working days** from the date of reporting to the Commission and the Exchanges, if do not receive any observation from the Commission or the Exchanges.
13. The Issuer and issue manager shall arrange posting the lottery result on their websites within **06 (six) hours** and on the websites of the Commission and Exchanges within **12 (twelve) hours** of lottery.
14. Within **02 (two) working days** of conducting lottery, the Issuer shall:
  - a) send category wise lists of the successful and unsuccessful applicants in electronic (text format with tilde '~' separator) format to the respective Exchange.
  - b) send category wise lists of unsuccessful applicants who are subject to penal provisions as per conditions of the Consent Letter issued by the Commission in electronic (text format with tilde '~' separator) format to the Commission and Exchanges mentioning the penalty amount against each applicant.
  - c) issue allotment letters in the names of successful applicants in electronic format with digital signatures and send those to respective Exchange in electronic form.
  - d) send consolidated allotment data (BOID and number of securities) in electronic text format in a CDROM to CDBL to credit the allotted shares to the respective BO accounts.

#### **Step-4 (Intermediary)**

15. **On the next working day**, Exchanges shall distribute the information and allotment letters to the Stockbroker/Merchant Bankers concerned in electronic format and instruct them to:
  - a) remit the amount of successful (other than NRB and Foreign) applicants to the Issuer's respective Escrow Account opened for subscription purpose, and unblock the amount of unsuccessful applicants;
  - b) send the penalty amount of other than NRB and Foreign applicants who are subject to penal provisions to the Issuer's respective Escrow Accounts along with a list and unblock the balance application money;
16. **On the next working day** of receiving the documents from the Exchanges, the Stockbrokers/Merchant Banker shall request its banker to:
  - a) release the amount blocked for unsuccessful (other than NRB and foreign) applicants;
  - b) remit the aggregate amount of successful applicants and the penalty amount of unsuccessful applicants (other than NRB and foreign) who are subject to penal provisions to the respective 'Escrow' accounts of the Issuer opened for subscription purpose.
17. **On the next working day** of receiving request from the Stockbrokers/Merchant Bankers, their bankers shall unblock the amount blocked in the account(s) and remit the amount as requested for to the Issuer's 'Escrow' account.
18. **Simultaneously**, the stockbrokers/Merchant Bankers shall release the application money blocked in the customer accounts; inform the successful applicants about allotment of securities and the unsuccessful applicants about releasing their blocked amounts and send documents to the Exchange evidencing details of the remittances made to the respective 'Escrow' accounts of the Issuer. The unblocked amounts of unsuccessful applicants shall be placed as per their instructions. The Stockbroker/Merchant Banker shall be entitled to recover the withdrawal charges, if any, from the applicant who wants to withdraw the application money, up to an amount of Tk. 5.00 (five) per withdrawal.
19. All drafts submitted by NRB or Foreign applicants shall be deposited in the Issuer's respective 'Escrow' accounts and refund shall be made by the Issuer by refund warrants through concerned stockbroker or merchant banker or transfer to the applicant's bank account (**FC account which has been debited to apply by NRB or foreign applicants**) through banking channel within 10 (ten) working days from the date of lottery.

#### **Miscellaneous:**

20. The Issuer, Issue Manager(s), Stockbrokers and Merchant Bankers shall ensure compliance of the above.
21. The bank drafts (FDD) shall be issued considering TT Clean exchange rate of Sonali Bank Ltd. on the date of publication of abridged version of prospectus.

**(a) Summary:**

**(i) The summary of the industry and business environment of the issuer. The summary shall not be one-sided or biased to highlight the issuer or the issue;**

The ready-made garment (RMG) industry is a strategic sector for Bangladesh. Bangladesh is now the second biggest exporter of readymade garments in the world. The textiles industry is contributing around 12% of the national GDP. Around 40% value addition of manufacturing sector comes from textiles. It is possible only because, the industry has developed a strong backward linkage to support the fast growing demand from the garments sector. Over the years significant development has taken place in the textile sector. The textile industry provides 5.5 millions of employment where 80% of them are women. It provides huge opportunities for supporting industries like- banking, insurance, shipping, transport, hotels and other related economic activities. 15 million people in support industries depend on this trade. The industry also provides 2 lakhs of jobs in the waste recycling industries. There are associations like BGMEA (Bangladesh Garment Manufacturers and Exporters Association), BKMEA (Bangladesh Knitwear Manufacturers & Exporters Association) and BTMA (Bangladesh Textile Mills Association) who are integrating their efforts to protect and uphold the interest of the industry by adding formulation of government policies consistent with a congenial growth of the sector. Over the past two decades, starting from the early 1980s, Bangladesh has built a strong reputation centered on price advantage via low-cost labor and investment incentives; production capacity, and satisfactory quality levels, especially in value and mid-market price point segments.

The industry has a great contribution in poverty reduction by providing entry-level workers with a great scale of employment opportunities and earnings higher than the national poverty line. Such a dynamic development of the industry entails great diversity in efficiency, even in comparison with the garment industry of other developing countries. The industry of Bangladesh has global competitiveness in terms of product quality & price through industrial upgrading, in terms of usage of latest machineries and vertical integration and industrial agglomeration.

The readymade garments industry acts as a catalyst for the development of Bangladesh. The "Made in Bangladesh" tag has also brought glory for the country, making it a prestigious brand across the globe. Bangladesh, which was once termed by cynics a "bottomless basket" has now become a "basket full of wonders." The country with its limited resources has been maintaining 7.3% annual average GDP growth rate and has brought about remarkable social and human development. (Source: Bangladesh Bank)

**Business environment of the issuer**

The worldwide textile and clothing business are going through a major shift-- it is now more modernized, more dimensional and more vibrant. In addition, the global value chain for clothing trade integrates more rapidly than ever before. Bangladesh has showed remarkable agility over time for a prosperous future eschewing the hiccups in areas of overall management and infrastructures in this industry.

At present, our apparel sector continues adding fresh ideas and modules like business intelligence, state-of-the-art technology, modern management practices and production technique. These are indeed the manifestations of our relentless efforts to the global standards what was once considered unparalleled to emulate techno-based advance economies. Competitive wage rate together with easily trainable workforce, entrepreneurial skill, expanding supply side capacity, and government policy support helped to translate the comparative advantages into competitive advantages. Flexible functioning of the labor market is a positive factor for export competitiveness in Bangladesh. On average, labor markets in Bangladesh respond to productivity improvements and incentives and government interventions are minimal. This favorable endowment of labor and flexibility of the labor markets provide Bangladesh a great competitive edge on specializing in labor-intensive products, especially in the manufacturing sector. Three decades of experiences, supply of enthusiastic labors, huge number of entrepreneurs grown over the years, Bangladesh has established a structural competitiveness in the apparel industry. Quota system was a great blessing for establishing our garments industry. Our industry conquered the post quota challenges and made that a successful story.

RMG sector of Bangladesh has some key factors, which inspired for steady growth of this sector and shows its robust performance in the world. The key factors, which have great influence on RMG sector of Bangladesh, are in the following:

1. Vast labor force
2. Skilled human resources
3. Technological upgrades
4. Government supports for textile and clothing
5. Special economic/export processing zones
6. Creation of textile and clothing villages
7. Incentive for use of local inputs
8. Duty reduction for the import of inputs/machines
9. Income tax reduction
10. And international supports like GSP, GSP+, duty free access etc.

### **Challenges of growth**

While Bangladesh represents some very promising advantages in certain dimensions, a number of challenges could create hurdles for the industry such as:

#### **Infrastructure**

For all business stakeholders, infrastructure (transport and utilities supply) is the single largest issue hampering Bangladesh's RMG industry. Buyers today are forced to carefully select the type of products to source from Bangladesh, since congested roads, limited inland transport alternatives, and the lack of a deep-sea harbor add inefficiencies to garment lead-time. With the aim to move toward sourcing more fashionable, shorter lead-time items in Bangladesh, reliable and fast transport is becoming extremely important.

#### **Utility**

The uninterrupted power supply is the key issue for development. Today, many factories are investing to ensure having a constant power supply and are using their own generators in order to remain independent of the public energy supply. However, the issuing of gas licenses has been limited, leading to delays in manufacturers' expansion plans.

#### **Social compliance**

Issues in social compliance mentioned by some of the top buyers in Bangladesh are the lack of worker education, a remaining risk of subcontracting, lack of law enforcement, and a continued need for developing fair practices and compensation. Bangladeshi workers are not efficient as of Hong Kong, South Korea and Sri Lankan workers. Wages are low in Bangladesh, but it does not necessarily mean that relatively low wages workers automatically lead to higher productivity. So, to keep place in the world's largest competitive market, labor productivity must be improved.

#### **Political stability**

Political stability creates a negative impact on RMG sector of Bangladesh. If it continues, it will be a massive blow to destroy our most valuable sector. So, political leaders should come out immediately to solve such kinds of problems.

#### **Workplace safety**

It's a huge responsibility for the government of Bangladesh to ensure working place safety in all the garments manufacturing factories. If we can't do it, foreign buyers will refuse to place order here, which will be a massive blow for RMG sector of Bangladesh. We hope, the government of Bangladesh, BGMEA and BKMEA, with the support of global brands and international development partners, will be able to ensure the safety of the RMG industry and maintain the momentum of socio-economic development in the country.

Two major incidents in RMG sector of Bangladesh are the Tazreen fire and the Rana Plaza collapse, which have brought the issue of workplace safety to the fore and led all stakeholders to act accordingly. However, it's good news for RMG sector that, following the unfortunate incidents, various platforms such as the Bangladesh Accord on Fire and Building Safety, the Alliance for Bangladesh Worker Safety and National Plan of Action have been formed to improve building and fire safety of Bangladesh's garment industry. In addition, BGMEA and BKMEA are working together here to solve such kinds of problems. They have also taken necessary actions and invested huge amount of money.

### **Strategies for development of RMG Sectors**

#### ***New product development strategy***

We are regularly produced the same products. Our product items that are exported into foreign market are Shirts 60%, Jackets 11%, Knit items 10%, Trousers 7% and others 12%. To survive in the world's most competitive RMG market, we have to develop new product items with a lot of variations.

#### ***Product diversification strategy***

Product Diversification Strategy is an important factor to keep place in the world's readymade garments market. Different types of products should be produced by applying fashion. Thailand, China, India, Pakistan, Hong Kong, Singapore,

Malaysia, Indonesia and others are the main competitors of Bangladesh. They are already ahead of Bangladesh in product diversification strategy areas.

#### **Market diversification strategy**

Bangladesh has exported their products in the world's limited market. Mostly are in USA, Canada and Europe. About 25% of its total garment exports goes to USA and North America and rest of those into the European market. The competitors of Bangladesh are regularly expands their markets and keep changing their products by using fashion.

#### **The following key factors must be undertaken during market diversification strategy**

- Market research on product design
- Market research on product development
- Market promotion through trade fairs, exhibition, etc.
- Human resources development by providing training

#### **Future prospects for RMG Sector of Bangladesh**

According to the McKinsey survey, it's seen that 86 percent of the chief purchasing officers in leading apparel companies in Europe and the United States planned to decrease levels of sourcing in China over the next five years because of declining profit margins and capacity constraints.

McKinsey<sup>1</sup> forecasts, export-value growth of 7% to 9% annually within the next ten years, so the market will double after 2017 and nearly triple by 2020. It's a prime duty for us to provide a perfect working place for the readymade garments sector of Bangladesh which has given our economy a strong footing, created jobs for millions of people, especially for women, lifted them from the abyss of chronic poverty and given them a magnificent life. So development of RMG sector is vital for socio economic development of Bangladesh.

(vi) The following details of credit rating, where applicable:

(a) The names of all the credit rating agencies from which credit rating has been obtained;

Name of Credit Rating Agency: Credit Rating Agency of Bangladesh Limited (CRAB)

(b) The details of all the credit ratings obtained for the issue and the issuer;

Credit rating by	Credit Rating Agency of Bangladesh Limited (CRAB)		
Date of rating	1 November 2018		
	Entity Rating	Long term	Short term
Rating	A <sub>1</sub>	A <sub>1</sub>	ST-3
Validity	25 October 2019 for entity rating, long term loan rating and short term rating		

(c) The rationale or description of the ratings(s) so obtained, as furnished by the credit rating agency(s);

Credit Rating Agency of Bangladesh Limited (CRAB) has reaffirmed A1 (Pronounced as Single A One) rating of Esquire Knit Composite Limited, A1(Lr) rating for BDT 947.3 million aggregate long term outstanding (LTO) and BDT 100.0 million aggregate cash credit limit availed by the Company in the Long Term. CRAB has also assigned ST-3 rating to BDT 797.0 million aggregate fund based limits and BDT 1,718.0 million aggregate non-fund based limits availed by the Company in the Short Term.

**(d) Observations and risk factors as stated in the credit rating report.**

**Observations**

1. More than a decade of presence in RMG industry with strong synergy exposure from the other concerns of the group.
2. Structured value chain created by two concerns of Esquire Group- Esquire Dyeing Industries Ltd (EDIL) and Esquire Accessories Ltd. (EAL) in terms of procurement of raw materials.
3. Stable revenue growth over the years with increasing cash flow from operation in FY 2018.
4. Sound credit risk profile led by 0.3x debt ratio and 0.5x borrowed fund to EBITD ratio.

**Credit Concerns**

1. Moderate level of leverage position.
2. Labour unrest or strikes may make the industry vulnerable and susceptible to competitive pressure which arises from other low cost countries with lower foreign exchange rate fluctuation.

The revenue of EKCL has grown by 8.7% in 2018 from previous year maintaining stable growth in business. No notable changes in business model during this surveillance period with same scale of business operations compared to the previous year supported to retain the long term and short term ratings.

Rating also factors on-going spending on capital machineries in absolute amount in accumulated figure of BDT 290.89 million as Capex in 2018 as per the audited financial statements. Such initiatives ensure the quality of EKCL's products and also help the Company to maintain compliance with its buyer class. As per the audited financial statements of 2018, reported capital composition of the Company was equity dominated as borrowed fund was reported 0.3x times of equity. However, borrowed fund to adjusted equity ratio marked at 0.5x times as of 30 June 2018 revealing moderate level of leverage position of the Company. The times interest coverage ratio of the Company stood at 4.4x times in 2018 reflecting cushion to meet up present level of debt obligation.

Going forward, the Company's ability to continue positive growth in revenue through retaining its biggest customers, its ability to improve the cash flows and leverage position through improving the operating profitability, timely enhancement of the working capital limits will have impact on future rating consideration, and vice versa.

#### Past trend in local Market

The Company does not sell any of its products in the local market of the country.

#### Future prospects regarding export

Bangladesh is targeting to have 8% of the global apparel market share to achieve the targeted US\$ 50 billion RMG exports by 2021. Currently, apparel demand in the global market is about US\$ 450 billion which will hit \$ 650 billion by 2021. Bangladesh currently shares 5% of the total global apparel demand.

Future export growth will likely rely, first, on capturing new markets and increasing market share in existing markets, with existing products. Bangladesh's exports have grown strongly and doubled in world market share between 1995 and 2016, owing to the success in garments, catering largely to the EU and USA. Garments can continue to grow, in existing and newer markets. Newer products will emerge more slowly. Thus, more rapid export growth will initially rely on capturing higher market shares in Bangladesh's existing strength, i.e., basic garments - both in current markets, and penetrating newer and dynamic markets such as Japan, China, ASEAN and India.

Bangladesh has been witnessing tremendous industrial growth across its industrial sector; textile and apparel have especially dragged the focus of government bodies and private investors. Vast availability of low cost manpower, one of the most competitive energy costs and a proven track record in apparel production and exports has positioned Bangladesh as a regional apparel industry development hub in the Asian continent. In context of fast increase in labor wages and raw material prices in

other major regional counterparts, such as China, India, Thailand etc., Bangladesh is well poised to remain most preferred destination for international apparel majors for sourcing world class fabric and finished clothes.

Bangladesh is best place for investing in textiles and garments industry due to cheap labor (Note-1) and favorable trade status with the EU. Again, Government incentives for the spinning, weaving and knitting industries in the form of cash subsidy of the fabric cost to exporters sourcing fabrics locally. There is huge yarn and fabric demand supply gap in the RMG industries, which is presently met by imports. Thus, the potential for backward linkage industry is enormous prospect for a huge textile industry capable to supply over 3 billion yards of fabrics a year to the export oriented garment industry has also been developed by the industry. Presently, about 85%-90% of this demand is met by import from countries like China, India, Hong Kong, Singapore, Thailand, Korea, Indonesia, Taiwan, etc. Fabric requirement is increasing at 20% per annum. This offers a tremendous opportunity for further investment.

### **Future prospects regarding local market**

Currently, The Company has no plan to sale its product in local market as well as in future.

### **Demand and Supply forecast**

Bangladesh is the world's second largest RMG exporters after China. Bangladesh's market share in the global RMG market is 5 percent with China holding 30 percent of the global apparel market. The economy of Bangladesh is growing steadily with an average 6%-6.5% GDP growth every year on the back of foreign remittance and a fast growing RMG sector. The growth is steady but not something to cheer about when a young nation with more than 57% population of working-age and a total GDP of mere 173 billion USD. Economist says a double digit growth of GDP is quite possible and it is heavily dependent on the performance of the industrial sector.

2021 is not far away and it's a huge challenge for our economy to reach the benchmark that the Government has declaration to reach a level of middle income status by this time. Textiles and RMG has always been the heart of our economy and the growth trend of the sector will definitely drive the economy of the country in the coming days.

**(vii) Description of associates, subsidiary and holding company of the issuer and core areas of business thereof;**

The Company has no associate, subsidiary and holding Company.

**(viii) How the products or services are distributed with details of the distribution channel. Export possibilities and export obligations, if any;**

The Company is 100% export oriented and exports its products directly through L/C.

Products are regularly distributed to the entry port of respective buyer's country conforming to all export regulations prevailing in Bangladesh. From the entry port, assigned distributors are taking the products to the end users abroad.

#### **Details of distribution channel**

The Company directly exports its product to the buyer from their factory.

#### **Export possibilities**

At present, the Company is exporting its products mainly to European nations. There is huge potential for the Company to explore other export markets i.e. South America, African nations, East Asian countries etc. in the near futures.

#### **Export obligation**

Currently, there are no export obligation imposed from the Govt. to export RMG products to anywhere of the world accept some condition as imposed by WTO such as quota, duty on trade are prevail as well in exporting to some region and countries are prevail and reviewed by the regulator time to time.

**(ix) Competitive conditions in business with names, percentage and volume of market shares of major competitors;**

Booming RMG sector currently employs 4 million workers, mostly women, who are generating almost 80% of the country's export. Sector growth is precipitating due to increasing labor costs in China and other competitors, leading them to move up the value chain. Bangladesh, providing the most inexpensive labor, has been the natural beneficiary of some shifting export orders.

Many international investors have expressed strong interest in setting up factories in Bangladesh. Government is under process for setting up special economic zone specifically for foreign companies. Other companies also have expressed interest in investing in Bangladesh, especially considering country's large consumer base of 160 million and close proximity to China and India.

The government has been investing heavily in infrastructure developments, especially in the field of power generation, as frequent power outages have historically been a major hindrance for economic activities. Government has tackled the demand-supply gap by directly involving the private sector. Entrepreneurs have established quick rental power generation plants which have been regularly supplying to the national grid, contributing to lower electricity shortage.

There are also long term plans of establishing a deep seaport in Sonadia and Chinese and Indian investors have expressed interest in developing the seaport. Establishment of seaport, expected to be completed in 10 years, can significantly reduce export lead time and earn steady flow of revenue for the government.

If Bangladesh fails to act in time, other competitors could march ahead and take the markets China is vacating. China is currently either vacating some price competitive product segments or investing abroad in more competitive locations, offering great opportunities for Bangladesh. Bangladesh could potentially become an important player in manufacturing based on a strong comparative advantage in labor-intensive industries, with wages half those in India and less than one third of those in

China or Indonesia. This comparative advantage, matched with a large population, has translated into very strong price competitiveness in the garment sector and possibly could, with the right policies, translate into competitive positions in other manufacturing industries.

Future export growth will likely rely, first, on capturing new markets and increasing market share in existing markets, with existing products. Bangladesh's exports have grown strongly and doubled in world market share between 1995 and 2012, owing to the success in garments, catering largely to the EU and USA. #### Contingency plan in case of any disruption

As there are sufficient numbers of suppliers so the issuer has alternative options for sourcing of raw materials if any suppliers fail to supply raw materials. Again, the Company maintains adequate level of stock of raw materials against its demand for production. Therefore, there are less possibilities of shortage of raw materials.

#### (xi) Sources of, and requirement for, power, gas and water; or any other utilities and contingency plan in case of any disruption;

Utility	Requirement	Sources
Power/Electricity	Power requirement of the Company is about 6 MW per day.	1. Own GAS Generator from Waukesha US power by Titas Gas transmission and Distribution Com. Ltd. 2. Diesel Generator from PERKINGS & PETBOW 3. Rural Electrification Board From above sources the Company generate 5.7 MW
Gas	The Company requires about 1,298.94 meter 3 of gas per month for running the captive gas generators.	Titas Gas Transmission and Distribution Company Ltd.
Water	The Company requires about 95,000 Gallons of water per day for cooling tower, chiller etc.	The factory gets its water supply from its own deep tube-well.
Other utilities	To run the day to day business of the organization and for smooth correspondence purpose utilities like telecommunication services and internet services are required.	The Company avails internet services from aamra Network Ltd. (availed dedicated lease line) for telecommunication services. The Company also has availed IP phone from ISN Limited.

#### Contingency plan for any disruption of sourcing utilities

If any source of utilities disrupt, the Company have the following contingency plan:

- A. Standby engineer and maintenance team to emergency repair of generator.
- B. Use of alternative generator in case of any shutdown.

Valuka	1397.00	800,000	1,117,600,000
	<b>2918.25</b>		<b>2,158,852,000</b>

**Basis of revaluation**

The valuer have estimated the value of land of the Esquire Knit Composite Ltd. Under Estimated Net Realizable Value method (the market approach) depending on the nature of assets and rationale mentioned as follows:

**Valuation rationale with basis of pricing**

Valuation of the lands involve determining at first the highest and best use of the respective land. The criteria that highest and best use must meet are (i) physically possible (ii) legally permissible and (iii) financially feasible, Esquire Knit Composite Ltd. Purchased the lands from different sellers and made a cluster of land which enhanced the economic utility and value of the land. EKCL developed these lands as factory and office purpose use. Keeping this in mind we have adopted market price approach for valuation of land and land development of the company. Exact market value of land cannot be ascertained unless the same is offered for sale. For valuation of land the valuer considered the price supplied by real estate agents, concerned mouza rates and prevailing market price (transfer/sale) of adjacent areas.

On verification of the current selling price of land adjacent to EKCL lands obtained from various authorities and on checking the current selling/transfer price of such land at private level, the valuer were led to believe that the present value of lands (after revaluation) owned by Esquire Knit Composite Limited is near about the rates prevailing in the market.

### Auditor Certificate Regarding Valuation of Land

We have examined the relevant documents and reviewed the valuation Report dated February 05, 2014 of the Independent Valuer S.F. Ahmed & Company, Chartered Accountants, Dhaka, Bangladesh in respect of revaluation of assets of the company as at December 31, 2013 under Estimated Net Realizable Value method (the market approach).

We opine that, the valuation Report has been prepared by the valuer in accordance with Bangladesh Accounting Standards (BAS) and Bangladesh Financial Reporting Standards (BFRS), Bangladesh Securities & Exchange Commission (BSEC) Guideline dated 18.08.2013 and other applicable laws, rules, regulations and guidelines.

#### Disclosure of the fact for few major foreign customers

- Major customers are foreign due to the Company is 100% export oriented
- To maintain sustainable business, the company is keeping long term relationship with buyer consistently
- There are a concentrated buyers who regular purchase company's product each year. It is a business strategy to uphold market share in the foreign market to maintain long term relationship with the consistent buyers.
- All buyers have good reputation and brand image in the international market
- Any foreign customer did not constitutes a significant portion of the company's business
- No single foreign customer had significant influence on the company's business

#### Impact of foreign exchange fluctuation on Company's business in case of buyer is foreign:

Exchange rate risk arises from currency fluctuation in international trade. If Bangladeshi Taka is devalued and/or foreign currency revalued than the price of imported raw materials will go up which will decrease the overall profit margin. As the Company is dependent upon the import for yarn, dyes, chemicals & accessories and in future it will be the same, volatility of exchange rate will have an impact on profitability of the Company. For last couple of years, Bangladesh Taka found carrying floated value and expected to follow the same, which expose the Company to significant exchange rate risk.

As on 30 June 2017, EKCL net exposure (foreign currency denominated liabilities) is USD (685,966) and TK./USD exchange rate considered BDT 80 per USD. If BDT devaluated the Company shall expose to foreign currency risk and have to be incurred additional expenses to repay the outstanding liability and import cost of raw material shall also increase which shall squeeze the profit margin. In contrast, if USD devaluated, EKCL shall earn significant profit from foreign exchange fluctuation.

**(6) In case the issuer has followed any unorthodox procedure for recording sales and revenues, its impact shall be analyzed and disclosed.**

Any unorthodox procedure was not followed by the Company for recording its sales and revenue.

**(y) Injunction or restraining order, if any, with possible implications;**

There is no injunction or restraining order.

**(z) Technology, market, managerial competence and capacity built-up;**

**Technology**

The factories of Esquire Group is well equipped with modern machineries sourced from Taiwan, Japan, Germany, Italy, Greece, UK, France, USA, Singapore, Sweden, etc. The factory is also equipped with Effluent Treatment Plant (ETP), Water Treatment Plant. Apart from these, the ERP system of the Company allows the corporate office to monitor the factory activities almost at every level of production.

There are about 300 pc's running in same LAN in Esquire Group. The devices used for smooth communication from Head Office to other Factories are 802.11g 30dBm Outdoor AP/Bridge, 24dBi Outdoor Grid Antenna, 2.4 GHz Lightning Protector, 5GHz /802.11a All-In-One Wireless Outdoor CPE etc. Tally ERP 9 software is used for Head office payroll & financial reporting, and Kormi 6 software is used for factory payroll control management. The Company also used In house developed Enterprise Resource Planning (ERP) based software for inventory and resources analysis.

The Quality Control Laboratory with modern equipment is for sample testing and meeting compliance requirements of international standard. Esquire Knit Composite Ltd. has also gone through 3P compliance as a requirement of DEG-the foreign financier of the Company. The compliance has covered ETP, Waste Treatment, Health and Safety and Risk Management, Training, Remuneration and Productivity of the Company.

**Market**

Bangladesh has been witnessing tremendous industrial growth across its industrial sector; textile and apparel have especially dragged the focus of government bodies and private investors. Vast availability of low cost manpower, one of the most competitive energy costs and a proven track record in apparel production and exports have positioned Bangladesh as a regional apparel industry development hub in the Asian continent. In context of fast increase in labor wages and raw material prices in other major regional counterparts, such as China, India, Thailand etc., Bangladesh is well poised to remain most preferred destination for international apparel majors for sourcing world-class fabric and finished clothes.

EKCL continues to have moderate growth and bring onto its portfolio branded customers such as Best Seller, S Oliver, Pull & Bear and Ostin whilst continuing to have growth with our long standing established customers such as Esprit, Strauss, Mascot, Next, Tee Jays and Celio.

Bangladesh is the second largest ready-made garments (RMG) exporting country in the world next to China. The apparels account for more than 81 per cent of Bangladesh's total merchandise export. A review of the garment industry shows that availability of lower cost and standard quality products in Bangladesh and the increase in production cost elsewhere in the world are the main reasons for the country's headway in this field. So the recent rise in wage rates will affect the competitiveness of the clothing industry of Bangladesh. The trend is good as international retailers are still coming to Bangladesh with a lot of work orders. China has already become an expensive destination for them. Political stability, smooth transport of goods and efficient management of Chittagong Port are what the garment sector needs the most now.

To remain competitive in the changing and competitive market, Bangladesh needs to strengthen its supply side as the demand for its garment items is on the rise. Among the new export destinations, Japan is promising market as garment and leather products to Japan are increasing significantly. Knitwear export to Japan is increasing as the sub-sector has started enjoying a duty benefit under generalized system of preferences. Bangladeshi manufacturers also need to strengthen their capacity in home textiles as the demand for such products is rising among the Western customers. Besides the traditional markets like the US, the EU and Canada, Bangladesh is performing well in Japan, India, China, South Korea, Chile, Brazil, South Africa, Australia and Turkey. It has been seen from the data base of BGMEA, total knit apparel export in the fiscal year 2016-2017 was 28,149.84 mn and which was 21,515.73 mn in the year 2012-2013 i.e., 31% growth during the last five years. (Source: [www.bgmea.com.bd](http://www.bgmea.com.bd))

The robust growth has been possible mainly because of the all-out efforts made by Bangladesh Garment Manufacturers and Exporters Association (BGMEA) and Bangladesh Knitwear Manufacturers and Exporters Association (BKMEA) to explore new destinations for the apparel products. In the FY 2016-2017, total export from RMG sector contributed 81.23% of total export of the Country. The exporters hoped that the non-traditional markets mainly China, Japan and Russia would be the big alternative destinations of Bangladeshi RMG products in the future as the domestic consumption of those countries was huge.

In view of the above, the company also has started diversifying market. EKCL have started developing business with the companies, who already have very strong presence in China, Australia, and Canada etc.

#### **Managerial competence**

The existing management is competent enough to run the business operation. The management team has proven track record to run large organization and vast experience to minimize the operational risk. The management also appointed such personnel who are capable enough to operate the plant effectively and efficiently. Even though any experienced personnel leave the organization, others have adequate expertise and skills to run the operation

#### **Capacity built-up**

In order to cater the global RMG market management of the company has decided to expand its existing capacity through expansion of the current project which is describe under the head of “USE of Proceeds” in chapter xxii of this draft prospectus.

Investment in ordinary shares is fraught with various levels of risk. Consequently, the return of the investment is dependent on the functioning of the risk factors. Esquire Knit Composite Limited operates in an industry, which exposed to a number of internal and external risk factors over which the Company has little or no control. The occurrence of the risk factors as delineated hereunder, and if the management fails to avoid or mitigate those, can have significant bearing on the operational and financial performance of the Company, which, in turn, may negatively affect the value of share of the Company. Therefore, it is imperative to understand the risk profile of the Company along with management's perception of the risks for taking an informed investment decision.

**(i) Internal risk factors may include, among others:**

**(a) Credit Risk;**

Credit risk is the risk of a financial loss to the Company if a client or counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from the company's receivables. Credit risk arises due to non-ability of payment of installment of loan in case of shortage of production, timely shipment of export or any adverse situation might hinder the export process such as natural calamities, political unrest, adverse economic policy etc.

**Management perception**

*Since The Company is involved in 100% export oriented business, all the sales had made against Letter of Credit (L/C). L/Cs were provided guarantee against credit sales and minimize the credit risk to an acceptable level. Bills receivable are arises due to the time difference between submission of bills to the bank for collection of proceeds and actual realization of the proceeds.*

**(b) Liquidity Risk;**

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they fall due. Liquidity risk arises due to insufficient fund to meet up short and long-term liability.

**Management perception**

*The Company's approach to managing liquidity (cash and cash equivalents) is to ensure, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the company's reputation. Typically, The Company ensures that it has sufficient cash and cash equivalents to meet expected operational expenses, including financial obligations through preparation of the cash flow forecast based on time line of payment of the financial obligation and accordingly arrange for sufficient liquidity/fund to make the expected payment within due date.*

*The liquidity position of the Company was remained stable from the inception of operation Cash Conversion Cycle of the Company 70 days. The Company has adequate working capital to smooth operation. The Company does not face any liquidity risks due to all of its exports are guaranteed by lenders.*

**(c) Risk associated with the issuer's interest in subsidiaries, joint ventures and associates;**

Return of investment of the holding company may be eroded due to conflict of interest among the group or any significant financial loss of the subsidiary and associates company.

**Management perception**

*The Company does not have any interest in subsidiaries, joint venture and associates companies. So there are no such possibilities of arisen risk in this respect*

**(d) Significant revenue generated from limited number of customers, losing any one or more of which would have a material adverse effect on the issuer;**

The revenue of the Company exposed to hindrance due to significant portion of revenue generated from concentrated customer

**Management perception**

*The Company is not dependent any single customer. A large number of global branded customers are regularly buying its product. Therefore, if one customer cancels its order it shall have insignificant impact on its total revenue.*

**(e) Dependency on a single or few suppliers of raw materials, failure of which may affect production adversely;**

Interruption in raw material supply may impediment of smooth production process.

**Management perception**

*The company has large number of supplier. It is not dependent on single supplier for sourcing of raw materials.*

**(f) More than 20% revenue of the issuer comes from sister concern, associate, or subsidiary;**  
Revenue would be concentrated if it comes from sister concern or associate or subsidiary company

**Management perception**

*The Company has no associate or subsidiary and no sales with any other sister concern. The Company exports its product through L/C to the international buyer. The Company is not exposed of such concentrated revenue pattern.*

**(g) Negative earnings, negative cash flows from operating activities, declining turnover or profitability, during last five years, if any;**

Any negative earnings, negative cash flows from operating activities, declining turnover or profitability prevail, then financial conditions indicate weaken accordingly.

**Management perception**

*The Company has positive record of accomplishment of earnings and cash flow from operation, no declining history of turnover. Profitability of the Company has shown uptrend except during the year 2015 but subsequently which was uptrend following the year 2016 and onward. The declining profitability has no major impact on company's current performance.*

**(h) Loss making associate or subsidiary or group companies of the issuer;**

The Company maybe exposed to risk of contagion, which refers that the financial problem, especially insolvency, of one member of a group will bring about deterioration in the condition of all members.

**Management perception**

*The Company is belongs to a renowned Group where no loss making entity exists. Again the Company has no associate or subsidiary company which are loss making. Therefore, no risk shall be arising in this respect.*

**(i) Financial weakness and poor performance of the issuer or any of its subsidiary or associates;**  
Financial performances have material impact on the sustainability of the Company as going concern.

**Management perception**

*The Company has a proven record of accomplishment of its strong financial fundamentals. The Company has planning to expansion of its business, which will strengthen its revenue base in future.*

**(j) Decline in value of any investment;**

Investment value might rise or fall because of market conditions (market risk). Corporate decision, such as whether to expand into a new area of business or merge with another company, can affect the value of investment

**Management perception**

*All investment carries some degree of risk. By better understanding, the nature of risk and taking steps to manage those risks an organization is could be able to hedge this risk. The Company has significant investment portfolio in its own resources and in sister concern assets. The level of risk associated with a particular investment or asset class correlates with the level of return the investment might achieve, the rationale behind this relationship is that investors willing to take on risky investments and potentially lose money should be rewarded for their risk. The analysis shown that return on investment (ROI) was always positive. The investment value was never decline.*

**(k) Risk associated with useful economic life of plant and machinery, if purchased in second hand or reconditioned;**

The Company shall not be able to operate its business longer period due to limited life of plant and machinery

**Management perception**

*The Company purchase all brand new machineries which economic life is pre disclosed by the vendors. More over there, all machineries are fully covered with service warranty. Expert technicians of the Company are solving any disruption with the machine.*

**(l) Adverse effect on future cash flow if interest free loan given to related party or such loans taken from directors may recalled;**

There are possibilities of a holding company to expand with debt or leverage, building an intricate corporate structure, which can include unrealized values, thus creating a risk if interest rates on obligations or the evaluation of assets posted as guarantee for loans alter radically

***Management perception***

*No unsettled receipt and payment incase of related party transaction. No director was given to or taken loan from the Company. So no risk was arose or possibilities to be arisen in future.*

**(m) Potential conflict of interest, if the sponsors or directors of the issuer are involved with one or more ventures which are in the same line of activity or business as that of the issuer and if any supplier of raw materials or major customer is related to the same sponsors or directors;**

Conflict of interest between the Issuer and its suppliers or major customer arise due to common management may create impediment in the day to day business operational process

***Management perception***

*No sponsor or director hold any position or own any stake in the business of its supplier or customer. Therefore, no conflict would be arisen in this respect.*

**(n) Related party transactions entered into by the company those may adversely affect competitive edge;**

In many cases related party transaction are under taken in the course of the normal business of an entity. In view of the nature of related party relationships and transactions, they may carry a higher risk about the ability of the Company to continue in business as a going concern- if the entity's interest is constantly subordinated to that of related party. Sometimes related party relationships and transactions may be difficult to identify and reported by the entity and subject to increased risk of fraud due to extensive and complex network of relationship sometimes put in place to obfuscate control of the entity, making related party transactions difficult to unravel. Sometime risk arise in the related party transaction due to entity's information systems may not be effective in identifying and recording related party relationship and transaction.

***Management perception***

*The Company provides adequate disclosures in the audited financial statements, which is sufficient about its related party transaction. The above disclosures are presented in true and fair view of the company's transaction with the related party. So there are no such possibilities of arise of conflict in this respect.*

**(o) Any restrictive covenants in any shareholders' agreement, sponsors' agreement or any agreement for debt or preference shares or any restrictive covenants of banks in respect of the loan or credit limit and other banking facilities;**

The future business process or revenue may hinder by any such restrictive covenants stipulated in the agreements with shareholders, with sponsor or any loan agreement with the bank or financial institutes.

***Management perception***

*There are no such restrictive covenants persist with any shareholders, sponsor or any bank loan facility.*

**(p) Business operations may be adversely affected by strikes, work stoppages or increase in wage demands by employees;**

RMG industry is operating mutually by workers and management mutual understanding. Owners are always concern about the workers demand. There were precedence in past regarding RMG workers violence in street, huge vandalism and put fire on motor vehicle causes a serious damage of the Company properties. Sometimes workers demanded more salary and stopped works, which also create financial loss to the Company.

***Management perception***

*No such situation was arose in the Company in past in this respect. If any situation would arise, then owner and workers shall jointly discussed and settled down the situation with utmost considerable aspects.*

**(q) Seasonality of the business of the issuer;**

Revenue of the Company would be affected if the business is seasonal.

**Management perception**

*The business of the Company does not depend on any season, as demand for RMG is remain throughout the year. Therefore, the Company's revenue is not affected by any seasonal factor.*

**(r) Expiry of any revenue generating contract that may adversely affect the business;**

The revenue would be squeezed if any contract for which revenue generated had expired.

**Management perception**

*There is no such contract for which the future revenue would be squeeze.*

**(s) Excessive dependence on debt financing which may adversely affect the cash flow;**

The Company would be exposed to high degree of risk due to **excessive dependence on debt financing**. It has possibilities that future cash flow from operation shall be squeezed due to increase financial expense.

**Impact of increase Leverage in case of project is financed through debt**

The IPO proceeds would be received subject to approval of regulatory authorities. In case of non-compliance of Bangladesh Securities and Exchange Commission (Public Issue) Rules, 2015, the regulator may not approve the proposed IPO of the Company. In that scenario, the project would be completed through bank financing and fund receive through internal cash generation.

Consequently, the Company has option to use debt to implement the project. Leverage can also refer to the amount of debt used to finance assets. When a company as "highly leveraged," it means that item has more debt than equity. Leverage is a multi-faceted and complex tool. The use of leverage can be quite profitable, but the reverse is also true. Leverage magnifies both gains and losses. In the business world, a company can use leverage to try to generate shareholder wealth, but if it fails to do so, the interest expense and credit risk of default destroys shareholder value.

**Management perception**

*No excessive dependency on debt financing due to net worth is positive. Again the operating cash flow was positive last 5 years which indicates that the Company's cash generation capacity from operating activities is sufficient. The expansion project shall also generate sufficient profit. The Management of EKCL is expects that they would be able to payment bank liabilities from out of future business profit.*

**(t) Excessive dependence on any key management personnel absence of whom may have adverse effect on the issuer's business performance;**

Key management personnel have pivotal role in the organization for smooth operation of the company. If key management personnel turnover is high that's have adverse impact on the organizational day-to-day activities.

**Management perception**

*Since inception of the Company, the employee rotation rate is low. The organizational structure has been design in such a way if in case key management person is quite from the job that's shall have no impact on Company's overall performance. The management has option to fulfill the vacant position by local and foreign employee.*

**(u) Enforcement of contingent liabilities, which may adversely affect financial condition;**

Contingent liabilities are likely to have a negative impact on a company's stock share price because they threaten to reduce the company's assets and net profitability. The extent of the impact on share price depends on the estimated probability of the contingent liabilities becoming actual liabilities.

**Management perception**

The Company has no contingent liabilities.

**(v) Insurance coverage not adequately protect against certain risks of damages;**

The Company would be exposed to significant loss if there are no insurance coverage on its assets.

**Management perception**

*The Company has been diversified the risk of damage of its assets by taking insurance policies. All fixed assets of the Company are under insurance coverage. Again, the Company is operate its export and import through Letter of credit, which is also under insurance coverage. The disclosure regarding insurance premium has been given in note 22.3 and 23.1 in audited financial statements as on 30 June 2017.*

**(w) Absence of assurance that directors will continue its engagement with Company after expiry of lock in period;**

The Company may expose to certain risk to operate its day-to-day business operations if current directors' engagement shall not continue after expiry of lock in period.

**Management perception**

*As the directors of the Company is owner so there are reasonable assurance that they will continue after the lock in period*

**(x) Ability to pay any dividends in future will depend upon future earnings, financial condition, cash flows, working capital requirements and capital expenditure;**

Any future dividend payment depends on the future revenue generation. Any negative earnings in future shall be hindered future financial stability of the company.

**Management perception**

*From existing business, the Company is generating significant revenue from which it shall be possible to pay dividend in future regularly. As per feasibility report, the Company shall earn significant revenue from its expansion business. It is presume that the Company shall be able to pay dividend from the excess earning which shall be gathered from the expansion unit as well as existing business operations.*

**(y) History of non-operation, if any and short operational history of the issuer and lack of adequate background and experience of the sponsors;**

The Company may appear in disrupt of future operation if it had any non-operation history or short operational history which may repeated in future or lack of adequate background and experience of the sponsor have some operational risk due to complex nature of problem shall not be resolved without having proper knowledge.

**Management perception**

*The Company has been started its journey more than decade and successfully operating till to date. Since its inception, there is no history of non-operation due to technical failure. The Company has strong technical expert team having expertise to handle any technical problems. On the other hand, all sponsors of the Company have vast experience to operate large scale of manufacturing plant. If any problem arises, the sponsor would mitigate the problem as usual manner through apply their previous experience.*

**(z) Risks related to engagement in new type of business, if any;**

Every business has some inherent risk such as market risk, financial risk and risk of new entrants with its competitors. If industry trends are moving away from the firm's product or service or if competitors already lock up potential customers, it will be difficult to gain customer momentum. Market can affect new business depending on nature and location of the business, prospective competitions and product pricing. Markets that are overly saturated with the same products and service can be detrimental to a new business ability to gain significant market share. On the other hand, new business faces significant financial risk due to achieve the target as projected in the financial projection and lack of working capital. If the business does not succeed, a new business owner could possibly face financial ruin.

**Management perception**

*The Company has a long track record of business. Within this time horizon, the Company has taken several strategic decisions such as business diversification, product promotion and discovering new market opportunity. After completion of its successful startup, the Company has now been reached in matured stage. After passed a successful decade of business operation, the sponsors has been set up new dream as well as broaden their views and fixing a spotlight to cater the greater market demand and strengthen in the industry by holding more market share to remain in the competitive business environment in local and global arena. In this context, the sponsor has taken strategic decision to expansion its existing business as they have long experience regarding its nature, business challenges, strategies and its market and future global demand and potentiality. Therefore, the sponsors are confident to operate proposed expansion project as they have already gain experience in RMG production and marketing. Though the expansion project shall increase the business size, increase*

operation activities and may have challenges in each and every phases of its implementation, the sponsors and management are confident enough to face any challenges to make the dream comes true to introduce of new horizon of business. The Management of the Company believes that to seize in the global RMG business, it is a right time to expansion of its current business capacity though there are many obstacles may have hinder and create impediment of its successful implementations. The Management is confident that if any risk arises that shall be mitigated as usual manner.

**(aa) Risk in investing the securities being offered with comparison to other available investment options;**

The Company would be exposed off potential financial distress if return on invest is low compare to alternative investment options they have.

**Management perception**

No other investment option that the Company has been considered except the project as describes under the head "Use of proceeds".

**(bb) Any penalty or action taken by any regulatory authorities for non-compliance with provisions of any law;**

The Company shall have risk to expose of eroded its brand name and goodwill in case of penalty or action taken by the regulatory authority.

**Management perception**

The Company has not exposed yet of any such penalty from its inception. Therefore, the management of the Company confident that there is little scope of arising such risk in near future. The Management of EKCL is always concern about monitoring and compliance of regulatory requirements.

**(cc) Litigations against the issuer for Tax and VAT related matters and other government claims, along with the disclosures of amount, period for which such demands or claims are outstanding, financial implications and the status of the case;**

Any litigation in terms of unsettled tax, VAT or any other Govt. claim may hamper business operation of The Company as well as may create future potential financial losses.

**Management perception**

At present, the Company has no contingent liabilities.

**Financial implication of the Contingent Liabilities**

At present, the Company has no contingent liabilities. Accordingly, there are no financial implication on the Company's financial position.

**(dd) Registered office or factory building or place of operation is not owned by the issuer;**

If office and factory location is not own by the Company business operation may hamper.

**Management perception**

The Registered office, factory building and the place of operation is under ownership of the Company. Therefore, there are less scope of arising any risk in this respect.

**(ee) Lack of renewal of existing regulatory permissions/licenses;**

Non-renewal of license may hamper day-to-day business operation of the Company.

**Management perception**

All licenses are valid and up to date. The management of the company is always taken timely steps to renewal of all its regulatory licenses. Therefore, scope of arising any risk in this respect is low.

**(ff) Failure in holding AGM or declaring dividend or payment of interest by any listed securities of the issuer or any of its subsidiaries or associates;**

Failure in holding AGM indicates noncompliance of rules and failure of declaring dividend impact on shareholders expectations and failure of payment of interest indicates weak cash management of the Company

**Management perception**

The Company has no listed securities or subsidiaries or associates Company. The Issuer is holding AGM regularly having track record of dividend payment and paying of interest in due time.

**(gg) Issuances of securities at lower than the IPO offer price within one year;**

If the Issuer was issued share at lower than the IPO offer price within one year, there have possibilities to arise misperception about IPO price.

Hence, a rational investor should carefully consider all the information contained in this prospectus including the risk factors elaborated below.

**(a) Interest rate risks;**

EKCL has outstanding long and short term liabilities from different banks. Hence, the Company is exposed to interest rate risk due to volatility of interest rates. Interest rates on short term and long term bank loans would be varied over time Due to several macroeconomic and market driven factors. Inflationary pressure, increased demand for bank loan, increased volatility in money market, restrictive monetary policy, etc. may compel EKCL's loan giving institutions to increase their interest rates on its outstanding liabilities. If the interest rates on its existing bank loans are increased from current levels, then its cash flow and profitability will be affected adversely. This may also affect its value of shares. It is the Company risk of gain or losses on assets and liabilities due to changes in interest rates.

**Management perception**

*The Company has sufficient financial strength to encounter any interest rate related risks. The Company is running its operation profitably and has favorable business outlook. Overall, the leverage level of the Company is well within its control. The amount of financial expense is neither large enough to expose the Company to significant interest rate risks.*

*Again, in its loan portfolio the Company avail loan from foreign source at cheaper rate compare to local loan. The volatility in foreign loan is lesser than local loan. Over the period of time, the Company repaid its loan burden significantly and has also reduce its loan liability to a large extent. This has also reduced its interest rate risk exposure. Again, interest rate trend is currently declining that is also favorable to the Company to mitigate interest rate risk exposure to a large extent. The past trend of profitability of the Company reveals that the Company's business operation is strategically in right direction to overcome any interest risk shock.*

*The expansion project capital structure shall also be combination of both debt and equity. The source of debt shall also be foreign and local. The current trend explicit that the future interest rate trend may be declining and shall not be burden to a large extent in case of the interest rate trend upward due to The Company future revenue expected to be increased through expansion of its current project.*

**(b) Exchange rate risks;**

Exchange rate risk arises from currency fluctuation in international trade. If Bangladeshi Taka is devalued and/or foreign currency revalued than the price of imported raw materials will go up which will decrease the overall profit margin. As the Company is dependent upon the import for yarn, dyes, chemicals & accessories and in future it will be the same, volatility of exchange rate will have an impact on profitability of the company. For last couple of years, Bangladeshi Taka found carrying floated value and expected to follow the same which expose the Company to significant exchange rate risk. The major raw material of the Company is yarn that is procured from local and foreign sources. The Company pays for the raw material mostly in foreign currency. On the other hand, it exports the entire merchandize for which it receives payment in foreign currency as well. Hence, any significant volatility in the exchange rate of Taka against a particular foreign currency such as the US Dollar will increase the volatility of the company's cash flow and profitability.

### **Management perception**

The Company receives its entire export proceeds in foreign currency and makes majority of the import payments in foreign currency as well. For a given depreciation of Taka against a particular foreign currency like US Dollar, the import payment and export proceeds will both be higher in terms of Taka. In case of an appreciation of Taka against the same currency, the opposite will occur. Hence, the Company has a natural hedge against exchange rate risk. It is naturally to be stated that cross border transaction should have exchange rate fluctuation due to demand and supply mismatch which cannot be eliminated but shall be averse through appropriate strategy taken by the management such as hedging of foreign exchange transaction. The Management of EKCL is fully aware of the issue and design its foreign exchange management in such a way that any unforeseen deviation in value of currency shall not be impact on profitability of the Company. The Management of EKCL is very much concern about the movements of foreign exchange rate. The management is always taking appropriate steps to hedge the foreign exchange risk in order to prevent the Company from any massive financial loss. The steps are as follows:

- Monitoring the price behavior,
- Forecasting the future trend of fluctuation of major currency,
- Limiting the opening L/C in case of adverse fluctuation of currency,
- Cash flow management,
- Negotiating with the lenders and
- Measuring other economics statistics

### **(c) Industry risks;**

Industry risk arises due to risk associated with business and macro-economic factors of the industry such as labor unrest, shortage of power, rising of raw material cost or shortage of raw material supply etc. If risk factor pertaining to industry is high, the growth of the industry shall be lower or may be eroded the entire potentiality of that industry.

### **Management perception**

Management perceives that every industry has some inherent risk, which is embodied with its nature. The textile industry has been growing rapidly since last two decades behind covering all risk factors. The textile industry of Bangladesh has been shown its inherent strength of being grown up for many reasons. Firstly, the large number of workforce, which are contributing for the development of this sector. Millions of workforce and their dependent family are associated with this industry. Secondly, the favorable Govt. Policy towards this sector has been contributed mass development of this sector. Besides these two factors, there is some risk associated with this industry that the Company has to face to remain in this sector such as:

- A. Business risk
- B. Labor unrest
- C. Unavailability of power
- D. Raw material related such as
  - (i) Rising of raw materials costs
  - (ii) Supply of raw material

#### **A. Business risk**

Every business has some risk in nature. The textile business has now suffering two major issues

- a. Risk of non-compliance of the conditions impose by international buyer
- b. Risk of Achievement of sales volume as increasing of competition

#### **a. Risk of non-compliance of the Conditions impose by international buyer**

### **Management perception**

Currently RMG buyers specially the large buyers are very demanding and constantly tightening the compliance criteria. EKCL has been in the forefront of compliance among the RMG exporters in the county. EKCL's has compliant plants with effluent water treatment facility, ETP, childcare facility, doctor's room, adequate ventilation, spacious structures, etc. The Company is able to meet all the compliance challenge in their 17 years of business experience and is likely to do so in the coming years. EKCL mitigates compliance risk since it has received several international accreditation certificates such as:

- Certificate by Oeko-Tex ® Standard 100.
- Certificate by Alcumus ISOQAR for of OHSAS 18001:2007
- Certificate by Alcumus ISOQAR of ISO 14001: 2015
- Certificate by ISOQAR of ISO 9001:2015
- Certificate for best design innovation from ONLY in the year 2015
- CU Inspection & Certifications India (Pvt.) Limited for Global Organic Textile Standard (GOTS)
- CU Inspection & Certifications India (Pvt.) Limited for Organic Content Standard (OCS)

The above certificate proves that operational efficiency of EKCL as recognized by the international accreditation body.

**b. Risk of Achievement of sales volume due to Increase of Competition**

To increase sales volume is a great challenge in the competitive business environment due to huge number of RMG factory are doing business in local and global arena. In international arena, the major competitor of Bangladesh is India, China, Vietnam, Thailand, Myanmar, Cambodia, Hong Kong, Korea, and Philippines etc.

**Management perception**

*Historically, EKCL has been successful to achieve its sales target. After expansion its capacity shall also increase for buyers demand. It is expected that after expansion sales volume shall also increase.*

**A. Labor Unrest**

Historically, textile and garments sector of Bangladesh had been affected by labor unrest. Any incident of labor unrest in EKCL or in any other company under same management will adversely affect EKCL's operation. More importantly, the Company's reputation in the industry as well as to its buyers would be affected. This may have consequences affect on the financial performance in the end as well.

**Management Perception**

*The Company perceives that the workers are the key factors of its success journey. The management is always tries to provide best compensations and facilities to its workers. The management always maintain good working environment for its workers. At EKCL, the employees and workers are valued the most. The Company always tries to ensure workers satisfaction in order to retain them in the Company. The Company provides various monetary and non- monetary facilities to its workers. Non-monetary facilities include day care facility for workers children, maternity leave for female workers and medical center for workers.*

*The Company provides several benefits to the workers in addition to the monthly basic salary. During each Eid, the workers get a festival bonus equivalent to one month's basic salary. The workers get annual leave encashment benefits as well in case they do not avail their annual leave. Besides, the Company has a workers profit & participation fund that allocates five percent of the company's annual pre-tax profit. There are also group insurance policy, maternity leave with pay, subsidizing of lunch allowance, transport facility for staff, Contributory provident fund, gratuity, 24 hours medical center, day care center, local and foreign training facility prevailing in the Company.*

*Overall, The Company intends to ensure good labor practices in the factory. Since inception, there has not been any incidence of labor unrest or vandalism in the factory premises. Since the business operation of the Company is closely monitored and compliance status is rechecked by the international buyers, the company needs to adhere to all the local labor laws, ILO conventions, and buyer specific requirements strictly.*

**B. Unavailability of Power**

Scarcity of power is the major obstacle for development of any industry. However, the situation of supply of electricity has been improved, but there are still shortage of electricity supply to the industry in some area. Again, unavailability of Gas connection also hinders new industry setup. The machineries of The Company run on electricity. The Company has electricity connection from Dhaka Electric Supply Company (DESCO). For any severe disruption in power supply, operation of The Company will be hampered. This would result in loss of production. Scarcity of power and limited power generation would be hindered the business operation of the Company. Again, non availability of power connection would be created obstacle to implement new project.

**Management Perception**

*The industrial bases of Bangladesh are mainly aided by natural gas-driven power generation, which causes disruption occasionally, and the weaving industry is not an exception. Smooth availability of gas will ensure the maximum functioning of the machineries. EKCL uses natural gas to produce power from captive power plant. Currently a circular from government has emerged to arrange alternate of gas due to recent acute gas crisis. The Company is connected with 15 PSI gas line and currently does not any problem of gas pressure. So other things being constant, EKCL does not foresee significant risk for power generation.*

*The Management of EKCL has planned to set up expansion project based on electricity. The management already prepared feasibility report based on both utility subject to regulatory permission. It is to be mentionable here that due to scarcity of natural gas, the Govt. of Bangladesh encourages to the entrepreneur to sourcing alternative power generation source such as coal, hydro power, solar to run the business. Therefore the Management of EKCL is aware about limiting source of natural gas and design its expansion project based on best alternative source such as coal, solar etc. subject to price and cost effectiveness.*

Apart from the electricity connection line from Rural Electrification Board (REB), EKCL has two diesel run generators with combined capacity to generate 1800 kilowatt of electricity per day. As a result, the Company would be capable to continue its operation even if REB connection will disrupt.

#### **Raw Material related risk**

##### **(i) Rising of Raw Materials costs:**

The cost of yarn and other chemicals are increasing drastically round the year. It may hamper the profitability of The Company significantly.

##### **Management perception:**

*EKCL is aware of the continuing market situation of its raw materials. The management of EKCL believes that long term planning for raw material management, exploring number of global markets, job wise costing for its finished products and trustworthy relations with the suppliers and mitigate the risk of rising of materials cost.*

##### **(ii) Raw material supply risk**

The Company receives yarn, dyes & chemicals both from local as well as foreign suppliers. Import based supplies are likely to be affected by any uncontrollable event or country risk to transaction or political barrier.

##### **Management perception**

*Since inception the Company did not face any such uncontrollable events so far because of maintaining good supply chain relationship with the suppliers of raw materials and in exceptional cases, it is confident to make alternative arrangement at shorter notice.*

##### **(d) Economic and political risks;**

##### **Economic risk**

Economic risk arises due to some various factors such as political or regulatory policy change, including adverse impact of globalization, social disturbances due to political unrest, terrorist attacks and other acts of violence or war, natural calamities, commodity and hike commodity & energy prices and various other factors. Any significant change may adversely effect on business and profitability of the Company.

##### **Management perception:**

*Bangladesh economy is booming for last few years. Consistent industrial growth along with increased agricultural production has made the per capita income higher than that of recent years. In addition, favorable government policies and industry friendly policies by other regulatory bodies have proved to be congenial to the economy of the country. Bangladesh has been considered to be next emerging country in terms of economic development. This indicates the future potentiality of our country's economic strength. Despite of some economic shortfall, Bangladesh economy is going to be stands on a strong platform in terms of micro and macro economy indicators such as inflation, exchange rate, foreign reserve, GDP growth, per capital income, domestic demand, Labor rate etc. Management of EKCL is perceives that this is the right time to confine the economic benefit through expansion of business.*

##### **Political risk**

The risk that an investment returns could suffer as a result of political changes or instability in a country. Instability affecting investment returns could stem from a change in government, legislative bodies, other foreign policy makers, or military control

##### **Management perception**

*The management of the Company believes that more effective management of political risk shall help the companies in protection of their investments and shall improve the performance of business operation. Management perceives that, this requires more integration of political risk management into a systematic process as well as shall have to be embedded in a company's other business processes. The management of the Company is fully aware of the potential risk related with political outcome and accordingly they have taken several safe guards to prevent the financial loss of the company. In this regard, the Group has been taken adequate insurance policy for its all fixed and floating assets to mitigate the political risk.*

##### **(e) Market and technology-related risks;**

##### **(a) Market risk**

Market risk is the risk that any change in market such as demand of product, foreign exchange rates fluctuation, prices of product, increase of competition, squeeze of business through cancellation of work order, shifting of buyer to another market will affect the company's business.

The objective of market risk management is to manage and control market risk exposures within acceptable parameters. The major market risks are as follows:

**(i) Demand risk**

EKCL operates in an export-oriented industry. Future growth of its operations depends largely on the demand of RMG products in the international markets. In case the demand of RMG products in the international market decreases, its future prospects would be affected. Moreover, competitive pressure from manufacturers of other countries may also divert the international RMG buyers to those countries.

**Management perception**

*Over the last few years, export of RMG products from Bangladesh has been growing at a very rapid pace. During fiscal year 2015-16, RMG export from our country stood at 82% of total export. Historically, Bangladesh's major export destination was North America and Europe. Recently, manufacturers of Bangladesh have been able to develop new markets i.e. China, India, Japan, Australia etc.*

*The Company believes that the knit garment sector will continue its growth due to several reasons. Firstly, this sector enjoys strong backward linkage capabilities. Secondly, the knit products contain high local value addition that provides preferential duty treatments under GSP (Generalized System of Preference) facility while exporting to EU countries. This makes the products manufactured in Bangladesh even cheaper compared to products of other countries that do not avail the GSP facility. Due to stronger backward linkage, the knit garment manufacturers can deliver products in lower lead-time as well. For all these reasons, the knit garment manufacturers can deliver highest quality products at a very competitive price compared to other garment exporting nations. Due to global financial crisis, demand for cheap apparel products is increasing. Many global apparel buyers are now shifting their orders from other countries like China and India to Bangladesh due to production costs in those countries is increasing due to high labor cost. Therefore, EKCL believes that its operations will continue to grow at an optimum pace.*

**(II) Foreign exchange rate fluctuation**

The Company would be exposed to currency risk on receiving of sales proceeds and payments made for raw materials purchase as well. Maximum of the Company's foreign currency transaction are denominated in USD.

**Management perception**

The Local currency conversion rate is remain stable last couple of years. USD to BDT conversion mostly unchanged which is favorable for exporters.

**(iii) Competition arises from other manufacturers within Bangladesh and globally**

The Company manufactures and exports RMG products, which is sold in the name of some renowned global brand. In doing so, it faces stiff competition from manufacturers operating within and outside of Bangladesh. It has to ensure optimum product quality, acceptable delivery lead-time and competitive pricing. The company's edge over competitors is depended on its quality and lead-time, production cost and several government incentives provided by the government. In case its competitive advantages is erode, the Company would not be able to achieve the desired growth in business and may not be able to keep their position in the international market.

**Management perception**

*Compared to manufacturers operating in countries outside Bangladesh, EKCL can manufacture readymade garments at a much cheaper rate due to lower labor and utilities costs. Compared to other manufacturers operating within Bangladesh, EKCL has several competitive advantages. The Company is running by experienced and professional personnel. The sponsors of the Company have long experience in RMG industry. The Company has been maintaining high standards of labor and factory practices. Since inception, it did not face any incidence of labor unrest. The Company has a well-trained team of quality control professionals to maintain and ensure the optimum level quality of the products. In addition, it has favorable relationships with its buyers and suppliers that help to broaden the market size of its product.*

**(iv) Cancellation of work order by buyers**

Increase of terrorism threat in worldwide may have negative impact on overall textile industry of Bangladesh. The foreign buyers may cancel the work order or shifting to another country in case of violence and terrorism threat increase in the country.

**Management perception**

*Threat of terrorism is a global issue. Most of the countries in the world are facing this problem. This phenomenon has been united the world nation against it. The global community has expressed their grief against terrorism. Management of EKCL also believes that threat of terrorism is a global issue and shall have impact equal like other business enterprise of the country. No other business enterprise shall avoid such type of threat. Most of the nations in the globe are encountered with this threat and this is not new one issue. Management of EKCL believe that the scarcity of Security shall be ensured by law and enforcement department through proper steps taken for ensuring security and in the long run the situation shall be normalize.*

*In the past, in some occasion large buyers of different RMG exporters has decided to withdraw business, or has become bankrupt or were subject to regulatory injunction from importing from Bangladesh, creating a strong impact on the exporter. For EKCL single buyer concentration is not a major issue and they have longstanding relationship with overseas buyers. All of them regard EKCL as their global partners and the relationship would only be disrupted if EKCL fails to perform its commitments. Also, because of its dominant position in the export market it is always sought after by many buyers.*

**Technology-related risks**

Technology is a continuous process of development. Innovation of new and cost effective technology may obsolete existing technology, which may cause negative impact on the business. The operation of the Company is capital intensive and the quality of the products is directly related to the sophistication of the machinery in use. In case, the technology of the machineries becomes obsolete, cost advantage and quality of production of the Company may be affected adversely.

**Management perceptions**

*The project is equipped with good machineries and technology to cope with the modern textile world. The Management both in head office and production premises seem to be competent and maintain the standard level of quality and to run the operations effectively. However, in order to reduce the operational risk, the Company is yet to ensure an external control mechanism. The Company has minimum exposure to operational risk. Technology of textile machinery develops over time but the technology itself does not become obsolete frequently. The machineries of the companies are very sophisticated and state-of-the-art technology. The Company believes that there is very low probability that the technology of its existing machineries will become obsolete in near future.*

**(f) Potential or existing government regulations;**

The development of the industry is mostly depends on government support. If Government fiscal and monetary policy is unfavorable towards the RMG industry, the growth and development of this sector would not be possible.

**Management Perceptions**

*The Government of Bangladesh is highly concentrate on economic development of the Country through industrialization. Textile sector is one of the largest foreign currency earning sector which is always under focused by Government monitoring. Government of Bangladesh has given emphasize on development of textile sector through liberalization of policies, privatizations, entrepreneurship development, fiscal incentives, lessen tax burden for listed Companies, easing of listing procedure to capital markets, Bonded ware house facilities for raw material import, export subsidy, focusing on infrastructure development and many policy support. The Management of EKCL perceives that these facilities shall be remain in near future which shall have positively impact on development of textile industry of our Country.*

**(g) Potential or existing changes in global or national policies;**

The Company operates in an export oriented industry. At present, it does not have to pay any import duty or tax on the raw materials that is imported through bonded warehouse. It does not have to pay any import duty on capital machinery either. Imposition of tax on import of raw material, capital machinery or export will adversely affect its profitability. Again, the Company does not pay any VAT as it is 100% export oriented industry. If any change in this condition, the profitability of the Company shall be affected.

**Management perception**

*RMG export is a vital sector to the economy of Bangladesh. The government incentives and subsidies are also vital to the sustainability of this sector. The Government of Bangladesh is aware of this fact. Hence, it is not expected that any undue tax or duty will be imposed that may adversely affect the sector's sustainability. Rather, the Government is keen to support the industry.*

**(h) Statutory clearances and approvals those are yet to be received by the issuer;**

To smooth running of the business operation statutory clearance is required. The Company has to comply with several international and buyer specific regulations. While exporting to EU countries, Bangladeshi products receive GSP (Generalized System of Preference) facilities. This makes Bangladeshi products cheaper than others. Besides, it has to comply with many buyer specific requirements regarding operation, internal process and policies. In case such policies and regulations change, the company's competitive advantage may diminish. It may have to incur additional costs in order to adhere to changed policies and regulations.

**Management perception**

*As a least developed country Bangladesh enjoys GSP facility from EU countries. Recently the rules for availing GSP facilities have been relaxed. Now a company in Bangladesh can avail GSP facility even if it imports fabric and yarn from foreign sources. The Company does not expect the facility to be withdrawn in near future. It adheres to the buyer specific requirements on a continuous basis. It believes that it has the financial soundness to meet such requirements and maintain its competitive edge. From inception to till date all regulatory approval has been taken by the management of the company. There are no statutory approval is being pending at issuers end. It has been regularly updated all licenses related to trade, Environmental, factory, IRC, ERC and all regulatory membership. The Company management is always aware and conscious about the up to date of licenses. Therefore, no risk shall be arisen in this respect.*

**(i) Competitive condition of the business;**

The competitive advantages of the manufacturers within Bangladesh depends on how their ability to manufacture optimum quality of goods as per buyer requirements. In addition, the companies who are capable of delivering within deadlines consistently outperform other companies. Because most of the readymade garment manufacturers concentrate on supplying relatively low value added items, the companies need to offer competitive pricing. Hence, in order to run profitably and maintain growth in operations, successful companies have to achieve optimum efficiency of operations.

**Management perception**

*EKCL has a good track record of business over the last one decade. It has a tremendous growth record. Despite there are severe challenges in RMG industry as well as stiff competition, EKCL could able to maintain its market share and business. The management of EKCL perceives that though there are immense completion in the industry and near future it shall be increased accordingly. Again, the Management of EKCL has forecasted that after expansion, the company may earn significant revenue and its market share shall be increased significantly. Management of EKCL perceives that to get the position in the global apparel market the existing capacity shall be enhance to cater the huge demand of its product. In this connection, the management has taken decision of expansion of its project to put on competitive advantage over its competitors to get position in the global market. The Company has been enjoying competitive advantage for expansion of its business such as it has own land to build up new factory, available labor, govt. policy support towards this sector, available raw materials etc. which shall help the Company to run the new project. EKCL management perceives that they shall be able to face all challenges that may hinder the business operation.*

*In general, manufacturers in Bangladesh can deliver products at a cheaper rate compared to other manufacturing countries i.e. China, Vietnam, or India due to lower labor rates. In addition, Bangladeshi manufacturers enjoy GSP facilities while exporting to EU countries that ensure preferential duty treatments. Over the years, Bangladesh has become a very important and booming hub for readymade garment export. This is evident by the growth of export earnings from this sectors over the last few years. During the year 2015-2016, the RMG export stands 82% of total export of the Country. The market for RMG is expected to grow further in the coming years. But increasingly buyers are becoming stiff about working condition, social and environmental compliance. So in order for a company to be competitive these things have to be taken into consideration.*

*Textile industry is required huge investment, sound technical machineries and skill manpower and availability of raw materials and utilities. EKCL has long experience to run its current project. Since inception EKCL management has devoted all its resources to run the organization smoothly which reflects on its past financial results. As a goal driven Company, EKCL has been able to stands in an apex position among the all Composite textile Company in Bangladesh. It has already created brand image in the country which is called "Esquire". The previous trend of success enthused the management to set up new venture through expansion. Board of Directors of the Company strongly believe that the current management of the Company is capable to take the challenges of implementation of the new project to cater the growing market demand of its product. The demand of product is increasing day by day and it shall be a strategic decision for the Company for expansion to be lifted its position in the competitive market. Management of the Company shall give all efforts for implementation of the new project as it shall be added long term financial benefit to the Company.*

**(j) Complementary and supplementary products or services which may have an impact on business of the issuer.**

Complementary and supplementary product may have impact on sale of the existing product of the Company.

**Management perception**

*The product of EKCL is RMG. There are no supplementary or complementary products of Cloths to its users. The Company would yet to face any challenges from competitive or supplementary products of cloths.*

**Other Risk factors**

**Risk related with sale and purchase**

**i). In the year of 2017, the Issuer was sold 58.40% of their total exports only to 5 customers. Any limited numbers or concentrated buyers would be created an adverse impact on the business of the Company in case of financial distress of its buyers for its un capability of business.**

**Management perception**

*The Issuer has good record of accomplishment of business with its client. Since inception, there were no irregularities of its customers in case of payment against export. On the other hand, all buyers are financially solvent to run their business. Moreover, the issuer has been regularly export to wide range of buyers according to their demand. The issuer has already set business operation to diversify different region of the world. More and More buyers are added regular basis. Therefore, it is assume that financial distress of any single customer would have less impact on the business of EKCL.*

**ii)The issuer business is concentrated to limited source of supplier. In the year of 2017, the issuer was purchased 67% of its raw material only from 4 customer which may create an adverse impact on the business**

**Management perception**

*There are available source of raw material in local and international market. If any supplier is unable to provide raw material, the Company shall procure it from alternative supplier from local and International market.*

**Risk related to expansion of business through IPO proceeds**

**i) The project completion shall be delayed in case of receives of IPO fund is delayed**

The IPO process has been accomplished through meet up of certain compliance as set forth in the Bangladesh Securities and Exchange Commission (Public Issue) Rules, 2015. In case of non-compliance of the rules, the regulatory permission would take more time for IPO permission. Consequently, the project accomplishment would be delayed for non availability of IPO fund.

Preparation for the IPO is expensive, complex and time consuming. As much as a year or more may be required to prepare for an IPO. During this period, business and market conditions can change radically, and it may not be a propitious time for an IPO, thus rendering the preparation work and expense ineffective.

**Management perception**

*The Expansion project would be financed through debt and equity both. The Management of EKCL has understanding that any mega project have some inherent risk in nature. The Company has been set its financing option both from foreign and local banks, own financing and IPO. If any case, IPO process is delayed, the Company has plan to take bridge loan subject to approval of regulatory authority to start the expansion project work. The lenders already has shown their intimation to finance in this expansion project. In any case, if IPO process is delay or cancel for non compliance of Bangladesh Securities and Exchange Commission (Public Issue) Rules, 2015, the Board of Directors of Esquire has desires to implement the project through debt financing or any other equity financing subject to approval of shareholders and regulatory authority.*

*Again, The Management of EKCL is very much optimistic about IPO of EKCL Accordingly they have set forth future business plan and business projection which is delineated under the head "Plan of Operation and Discussion of the Financial Condition". The Management of EKCL has been considered all factors in cost of the project including inflation, regulatory time requirements, and alternative source of procurement of construction materials and alternative source of financing options in preparing expansion project planning. Therefore, The Management is believe that, if any delay happen in case of getting IPO permission, the alternative options may be exercised in that case to implement the project. Accordingly, the expansion project implementation cost would not be varied and fluctuated compared to actual planning to a great extent. In the other hand, if there actual delay in IPO permission is happen, the management of EKCL shall be adjusted project cost accordingly for the greater interest of expansion project implementation.*

### iii)The downside risk of going public

Once a company goes public, its finances and almost everything about it – including its business operations – is open to government and public scrutiny. Periodic audits are conducted; quarterly reports and annual reports are required. Company finances and other business data are available to the public, and can sometimes work against company interests.

The Company is subject to BSEC oversight and regulations, including strict disclosure requirements. Among the required disclosures is information about senior management personnel – particularly compensation – which is often criticized by the stakeholders.

The company is subject to shareholder suits, whether warranted or not. Lawsuits would be based on allegations of self-trading or insider trading. They may challenge executive compensation, or they may oppose or question major management decisions. Sometimes a single, disgruntled shareholder may sue and cause expensive and time consuming trouble for a publicly traded firm.

The pressure for profitability each quarter is a difficult challenge for the senior management team. Failure to meet target numbers or forecasts often eventuates in a decline in the stock price. Falling stock prices, moreover, stimulate additional dumping, further eroding the value of the equities.

### Management perception

*Esquire Knit Composite Limited has been maintaining transparency and integrity in his business operation. Since inception, the Company has earned a solid reputation in the business arena for its strong brand value, superior quality of product, technology, sound relationship with buyer, meet up compliance of the all regulatory requirements, accountability, protecting stake holder interest and financial soundness and accuracy in each and every transaction. The Company is audited its financial statements by the panel of auditors who is referred by the Bangladesh Securities and Exchange Commission. The Company has regularly holds AGM and disclosed its all-financial and non-financial statements to the shareholders. Reputed local and foreign lenders Institute finance the project of the Company. The Company is fully complied Company as it has been complied all the compliance conditions of its lenders. The Company regularly is preparing monthly report, quarterly report annual financial statements. This reports are submitted to the different legislatives bodies Such as NBR, RJSC, Ministry of Environment, BGMEA, BKMEA, International Compliance Authority such as ACCORD and Alliance as and when need basis. The Management of EKCL has very much confident about the transparency and accuracy of its published data as submitted to the aforementioned authorities. Therefore, this is not a new phenomenon to the Company for disclosed its financial and non financial data to the others. Again, the management of EKCL believes that, there shall be created more accountability on the Company's management shoulder for keep transparency and accuracy in the financial statement when it shall goes to public.*

*Since inception, there are no litigations against the Company. Therefore, if any situation arise against the Company, the management would mitigate the litigation by its shareholders in due course under purview of State law of Bangladesh.*

*The management of EKCL is very much concern about shareholders interest. After expansion, the revenue of the Company shall be increased substantially. The Management of the Company believes that they would be able to maintain profitability in future.*

### Non payment of welfare fund of WPPF

*If any non payment of welfare fund have slightly negative impact on Company's business performance*

#### *Management perception*

*The Company keeps provision for Workers' Profit Participation Fund (WPPF) @ 5% of the net profit after charging such contribution but before tax contribution by the Company and payment is made to the workers as per provisions of Labor Laws (Amendment) 2013. The payment of welfare fund of such WPPF is under processing and newly introduced Central Fund are regularly deposited into government welfare fund as a 100% export oriented Company.*

#### Summary of Feasibility of Esquire Knit Composite Ltd. (Green Project)

##### Executive summary

Esquire Knit Composite Limited (the “Company” or “EKCL”) is a 100% export oriented Knit composite industry located at Kanchpur, Sonargaon, Narayangonj about 25 km off from Dhaka and having both road and river communication in a facility of all industry infrastructure in place. EKCL has been incorporated on February 16, 2000 in Bangladesh under the Companies Act of 1994 as a private limited company owned by Mr. Md. Mofazzal Hossain and family and commenced commercial operation in 2001. Subsequently the Company converted to Public Limited Company on 15 October 2015.

The group started into textiles with Esquire Dying Industries Limited in 1993 with yarn dyeing facilities 1<sup>st</sup> in Bangladesh and subsequently established Esquire Knit Composite Ltd. as a composite knit production unit with knitting, dyeing, finishing and apparel making facility.

In view of increased demand from existing buyers and to attract more volumetric buyers of readymade garments, EKCL has undertaken an expansion project under Green concept of its export oriented composite knitting industry at Valuka, Mymensingh about 68 km from central Dhaka, via Dhaka-Mymensingh highway and existing factory compound at Kanchpur, Sonargaon, Narayangonj. A piece of developed land at Valuka, Mymensingh measuring 1,397.00 decimal in the name of Esquire Knit Composite Ltd. demarcated by brick wall with R.C.C foundation already procured to increase production capacity - knitting and dyeing by 12,000 MT per annum while apparel making by 45,000 million pieces per annum.

The expansion project will have facilities for Yarn Dyeing, quality knit fabric, Fabric Dyeing, allover print, and readymade Knit garments to meet the requirements of buyers. The project shall be equipped with machinery incorporating state-of-the-art of technology, energy efficient, latest technology from UK, USA, Italy, Germany and Japan origin. In order to ensure uninterrupted production, REB will be used and gas generator/ LNG & Diesel generator facilities to be used as back up.

The total project is BDT 5766 million which shall be financed through - Initial Public Offer (IPO) 1,500 million BDT (26%). The rest shall be financed through Foreign/ Local financial institution/Bank financing – BDT 3,405 million (60%) and Internal cash generation out of existing business – BDT 861 million (14.93%).

Despite the strengths of the project, EKCL shall operate in highly challenging industry. With respect to the proposed fund raising the risks include, but are not limited to: (i) economic and political risk; (ii) foreign exchange rate risk; (iii) interest rate risk; (iv) market risk; (v) liquidity risk; (vi) technology risk; and (vii) implementation risk.

### Products of the Company

The Final products of the company is Knit garment with full composite facility like Yarn Dyeing, Knitting, Washing, fabric dying & All over printing etc.

### Production capacity

Post Expansion project as an integrated unit will have the following installed capacity:

Activity	MOU	Capacity to be increased / day
Yarn Dyeing	Kg	9,000 Kg
Washing	Pcs	80,000 Pcs
All over Fabric Printing	Kg	18,000 Kg
Fabric Dyeing	Kg	56,000 Kg
Knitting	Kg	55,000 Kg
Knit Garments	Pcs	2,40,000 pcs

**Note:** The project will be implemented phase by phase. **Phase -1 and Phase-2 may be interchange subject to revenue generation demand and status of completion of works.**

### Technology consideration

#### Power

The Prime Source of power will be projects own Generator & REB for expansion project. The existing project already has 04(four) sets of Gas Generator and dual fuel generator with sufficient capacity.

#### Water

The total requirement of water for the project will make available from projects own Deep-Tube-well.

#### Gas

EKCL needs gas for captive power plant, boiler to generate steam. In scarcity of natural Gas, Waste Incineration Boiler to be used which cost much lower than gas and diesel.

### Product and market

EKCL is a 100% knitwear export oriented company. The main products are T-shirt, polo shirt, sweat shirt, tank top, jog suit, etc. The product categories are Polo Shirt, Basic Shirt wear and Fancy Shirt. Fancy Shirt is the largest product category contributing 23.15% of the present revenue. In expansion project, Yarn Dyeing, Washing and all over printing to be introduced for more value addition to existing product line.

To take Order as per projection uninterruptedly, EKCL will follow two marketing strategy:

1. *Affordable price* – will bring with large scale of production with the help of energy efficient machineries of latest technologies and efficient manpower.
2. *More value added product line* - Value added products to be introduced with more product line avoiding traditional product line as buyer taste by our own designers.

EKCL Management believes that these two strategies will bring competitive sustainable advantage in future.

EKCL exports to EU countries, UK, China, Australia, Africa, Russia and other Asian markets, however EU is the major export destination, 60% of the EKCL export goes to EU, 10% goes to UK, 10% to China and rest of 20% goes to Australia, Africa and other Asian Markets.

### Raw Material

The main raw material of EKCL is grey yarn and dyes & chemicals. Approximately 60% of the yarn are sourced from local market and the rest 40% through import. 80% of the dyes and chemicals are imported directly from aboard and the rest 20% are procured Under BBLC from local suppliers. Fabric is the major raw material of Garments product which will be imported under BB LC in case of fabric dyeing unit implementation in the second phase.

## Life the project

Economic life of the project has been assumed to be 15 years without any major replacement.

### Pay -back period

The Pay Back period of the project is calculated to determine the period required to recuperate the original investment outlay through the profits earned by the project. The calculated payback period of the project is 5.51 years.

### Net Present Value

The net present value of the project is calculated to determine net cash inflow by discounting the amount at the rate of 11% for the period of 15 years. The calculated NPV of the project is BDT 2623 million at 15 years.

### Internal Rate of Return

Internal rate of return (IRR) is a metric used in capital budgeting measuring the profitability of potential investments. Internal rate of return is a discount rate that makes the net present value (NPV) of all cash flows from a particular project equal to zero. The calculated IRR of the project is 18%.

### Break even analysis

The breakeven analysis has been carried out the basis of cost and sales data of 3rd year of operation and is shown its work sheet. The project is expected to break even at 41% of the assumed capacity with sales revenue of BDT 9735 million

### Conclusion and recommendation

The feasibility reveals that the project is viable considering all aspects. The demand of Knit Garments is very high in the world and it is gradually increasing on consideration of development of knit garments sector. So opportunities are there to exploit this market for Bangladeshi knit manufacturers like Esquire Knit Composite Ltd. Therefore, it can be concluded that the project has the potential for investment so that it will contribute in the sector of knit garments as well as ultimate development of the country.

### Weaknesses

- Infrastructure available is not developed for mass production as country like India and China have huge infrastructure which enables them to enjoy economies of scale.
- Bangladesh does not have the local supply of yarn which is the key raw materials of Knit. So majority of raw materials are imported from India, or China which results a price hike in Knit for appreciated value of rupee and yen.
- Technology of Knit Industry is more advanced in other Asian competing countries. Such advancement in technology not yet been taken place in Bangladesh.
- Competition in this industry is fierce internationally because of recent development of abundant supplier of Knit Garments.

### Threats

- A highly competitive market which may result in a squeeze of profit.
- Political disturbances like strike and violence's may disrupt production,
- A hike in price for yarn for unavailability may result in high production cost.

Management is responsible for the preparation of financial statements that give a true and fair view in accordance with Bangladesh Financial Reporting Standards (BFRSs), the Companies Act 1994, the Securities and Exchange Rules, 1987 and other applicable laws and regulations and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

**Auditor's Responsibility**

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with Bangladesh Standards on Auditing (BSA). Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation of financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

**Opinion**

In our opinion, the financial statements referred to above give a true and fair view of the financial position of Esquire Knit Composite Limited as at 30 June 2017, and of its financial performance and its cash flows for the year then ended in accordance with Bangladesh Financial Reporting Standards.

**Report on Other Legal and Regulatory Requirements**

#### **2. Basis of Preparation of Financial Statements**

##### **2.1 Statement of compliance**

The financial statements have been prepared in compliance with Bangladesh Financial Reporting Standards (BFRSs), the Companies Act 1994, the Securities and Exchange Rules 1987 and other applicable laws and regulations.

##### **2.2 Other regulatory compliance**

In addition to the above, EKCL is also required to comply and has complied with the following laws and regulations:

- The Income Tax Ordinance 1984;
- The Income Tax Rules 1984;
- The Value Added Tax Act 1991;
- The Value Added Tax Rules 1991;
- The Bangladesh Labor (Amendment) Act 2013 2006;
- Customs Act 1969;
- Sale of Goods Act 1930;
- Negotiable Instrument Act 1881; and
- Other applicable rules and regulations.

### 2.3 Basis of measurement

These financial statements have been prepared under the historical cost convention applying accrual basis of accounting in accordance with Bangladesh Financial Reporting Standards (BFRSs).

### 2.4 Components of financial statements

The financial statements of the Company consist of the following components:

Statement of Financial Position;  
Statement of Profit or Loss and Other Comprehensive Income;  
Statement of Changes in Equity;  
Statement of Cash Flows and  
Notes to the Financial Statements.

### 2.5 Use of estimates and judgments

The preparation of the financial statements of the Company requires management to make and apply consistently the judgments, estimates and assumptions for records and balances that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

### 2.6 Functional and presentation currency

These financial statements are presented in Bangladeshi Taka (Tk./BDT) which is the functional currency of the company. The amounts in these financial statements have been rounded off to the nearest integer.

### 2.7 Reporting period

These financial statements of the company cover a period of twelve months from 01 July 2016 to 30 June 2017.

## 3. **Significant Accounting Policies**

### 3.1 Property, plant and equipment (PPE)

#### 3.1.1 Recognition and measurement

Property, plant and equipment are stated at cost or revalued amount, if any, less accumulated depreciation in compliance with Bangladesh Accounting Standard (BAS)-16: Property Plant and Equipment. The cost of acquisition of an asset comprises its purchase price and any direct attributable cost of bringing the assets to its working condition for its intended use.

#### 3.1.2 Subsequent costs

The cost of replacing a part of an item of property, plant and equipment is recognized in the carrying amount of the item if it is probable that future economic benefits associated with the item will flow to the entity and the cost of the item can be measured reliably. All other repair and maintenance costs are charged to the Statement of Profit or Loss and Other Comprehensive Income during the financial period in which they incurred.

### 3.1.3 Depreciation

Depreciation is charged on property (except land), plant and equipment using 'straight line method' over the estimated useful life of each item of property, plant and equipment. Depreciation on addition to property, plant and equipment is charged from the date when the asset is put into use for commercial operation. In preceding years, the entity charged depreciation at 20% p.a. on motor vehicles. From the year 2015 the management of Esquire Knit Composite Limited, considering the useful lives, decided to charge depreciation at 15% p.a. on motor vehicles instead of 20% p.a & 6.67% on Plant & Machineries instead of 10% and necessary adjustment for such changes in accounting estimate was given in the financial statement for the concerned year. No depreciation is charged on the assets from the month in which such assets are disposed. The rates of depreciation varies from 5% to 15% p.a. based on useful lives and nature of the assets. Rates of depreciation are as follows:

<u>Particulars</u>	<u>Rate</u>
Building	5.00% p.a.
Plant and Machinery	6.67% p.a.
Furniture and Fixtures	10.00% p.a.
Office Equipment	10.00% p.a.
Generator and Water Treatment	6.67% p.a.
Motor Vehicle	15.00% p.a.

### 3.2 Inventories

#### 3.2.1 Nature of inventories

Inventories consist of yarn, dyes, chemical, packing materials, accessories, sewing thread, printing & embroidery materials, stores and spare parts, etc.

#### 3.2.2 Valuation of inventory

Inventories are valued in accordance with BAS- 2: Inventories i.e. at cost or estimated net realizable value whichever is lower. The cost of inventories includes expenditure for acquiring the inventories and bringing them to their existing location and condition. Net realizable value is estimated upon selling price in the ordinary course of business less estimated cost of completion of the sale. When the inventories are used, the carrying amount of those inventories are recognized as expenses in the period in which the related revenue is recognized.

### 3.3 Advances, deposits and prepayments

Advances are initially measured at cost. After initial recognition advances are carried at cost less deductions or adjustments. Deposits are measured at payment value. Prepayments are initially measured at cost. After initial recognition prepayments are carried at cost less charges to Statement of Profit or Loss and Other Comprehensive Income.

### 3.4 Cash and bank balances

Cash and bank balances comprise cash in hand and cash at bank which are held and available for use by the company without any restriction.

### 3.5 Accounts receivable and other receivables

Accounts receivables are carried at original invoice amount. EKCL is a 100% export oriented company and all the sales/exports are done through L/C by banks. Receivables are considered as good and realizable. Other receivable represents accrued interest on FDR.

### 3.6 Accounts payable and other payables

These liabilities are recorded at the amount payable for settlement in respect of goods and services received by the company.

### 3.7 Loans and borrowings

Borrowings repayable after twelve months from the date of statement of financial position are classified as non-current liabilities whereas the portion of borrowings repayable within twelve months from the date of statement of financial position, unpaid interest and other charges are classified as current liabilities.

### 3.8 Income tax expense

Income tax expenses comprise current and deferred taxes. Income taxes are recognized in statement of profit or loss and other comprehensive income except to the extent that relates to items recognized directly in equity or in other comprehensive income.

#### 3.8.1 Current Tax

Taxation is provided in accordance with fiscal regulations applicable. The company taxation is under final settlement of tax liability under section 82C of the Income Tax Ordinance 1984 except other income. Income tax has been deducted at source under section 53BB of the Income Tax Ordinance 1984 on export from 1 July 2015 to 30 June 2016 at 0.60% and from 1st July 2016 to 30 June 2017 it will be @ 0.70%.

#### 3.8.2 Deferred Tax

Deferred tax has been recognized in accordance with the provision of BAS 12: Income Taxes, based on the deductible or taxable temporary difference between the carrying amount of assets / liabilities and its tax base. Deferred tax asset or liability is the amount of income tax recoverable or payable in the future periods recognized in the current period. Deferred tax asset or liability does not create a legal recoverability or liability from or to tax authority. Related deferred tax income / expense is recognized as well in the statement of profit or loss and other comprehensive income. Deferred tax assets and liabilities are off setted if there is a legally enforceable right to offset current tax liabilities and assets, and they relate to income taxes levied by the same tax authority on the same taxable entity.

A deferred tax asset is recognized to the extent that it is probable that future taxable profits will be available against which the deductible temporary difference can be utilized. Deferred tax assets are reviewed at each date of statement of financial position and are reduced to the extent that it is no longer probable that the related tax benefit will be realized.

### 3.9 Revenue

In compliance with the requirements of BAS-18: Revenue is recognized only when:

- i. Significant risk and rewards of ownership associated with the goods is transferred to the buyer;
- ii. The amount of revenue and the cost of the transaction can be measured reliably;
- iii. Sale of goods of the company usually occurs at the time of delivery of goods along with invoice, packing list and bill of lading; and
- iv. It is probable that the economic benefits associated with the transaction will flow to the company.

### 3.10 Financial expenses

Financial expenses comprise interest expense on long term loan, short term loan, finance lease and bank commission and charges, etc. All such costs are recognized in the statement of profit or loss and other Comprehensive Income except those are capitalized in accordance with BAS- 23: Borrowing Costs.

### 3.11 Cash flow statement

Statement of cash flows is prepared principally in accordance with BAS-7: Cash Flow Statement and the cash flows from operating activities are presented under direct method.

### 3.12 Foreign currency transactions

The financial statements are presented in Bangladeshi Taka (Tk./BDT), which is the company's functional currency. Transactions in foreign currencies are recorded in the books at the exchange rate prevailing on the date of the transaction. Assets and liabilities in foreign currencies as on the reporting date are converted into Bangladeshi taka at the closing rate. Exchange gain or loss is recognized in Statement of Profit or Loss and Other Comprehensive Income as per BAS 21: The Effects of Changes in Foreign Exchange Rates.

### 3.13 Leases

Leases in terms of which the company assumes substantially all the risks and rewards incidental to ownership are classified as finance leases. Upon initial recognition, the leased asset is measured at an amount equal to the lower of its fair value or the present value of the minimum lease payments. The interest rate implicit in the lease has been used to calculate the present value of minimum lease payments. Subsequent to initial recognition, the asset is accounted for in accordance with the accounting policy applicable to that asset.

### 3.14 Earning Per Share (EPS)

The company presents basic and diluted (when dilution is applicable) Earnings Per Share (EPS) for its ordinary shares. Basic EPS is calculated dividing the profit or loss attributable to ordinary shareholders of the Company by the weighted average number of ordinary shares outstanding during the period, adjusted for the effect of change in number of shares for bonus issue, share split and reverse split. Diluted EPS is determined by adjusting the profit or loss attributable to ordinary shareholders and the weighted average number of ordinary shares outstanding and for the effects of all dilutive potential ordinary shares. However, dilution of EPS is not applicable for this financial statements as there was no dilutive potential ordinary shares during the relevant periods.

### 3.15 Events after the reporting period

Events after the reporting period that provide additional information about the Company's position at the date of statement of financial position or those that indicate the going concern assumption is not appropriate are reflected in the financial statements. There are no material events that had occurred after the reporting period to the date of issue of these financial statements, which could affect the figures presented in the financial statements.

### 3.16 Provision

A provision is recognized on the date of financial position if, as a result of past events, the company has a present legal obligation that can be estimated reliably and it is probable that an outflow of economic benefits will be required to settle the obligation.

3.17 Employee Benefit Gratuity

Regular/confirmed employees of the Company who have completed minimum 5 (five) years of continuous service from the date of joining are eligible to gratuity payment at the time of separation of employment with the Company.

3.18 Interest Income

Interest income is accrued at the applicable interest rate on bank deposits in the period in which it is incurred.

3.19 Finance costs

Finance costs comprise interest expenses on bank loan and other borrowings and are recognized as expenses in the period in which they are incurred using applicable interest rate.

3.20 Revaluation surplus

This represents the difference between book value and revalued amount of land and land development. As per BAS 16: Property, Plant and Equipment, revaluation is done with sufficient regularity to ensure that the carrying amount does not differ materially from that which would be determined using fair value at the end of the reporting period. The fair value of land was determined from market-based evidence by an appraisal as on 31 December 2013 by S.F. Ahmed & Co. which is a professionally qualified valuer.

3.21 Impairment

(a) Financial assets

Accounts receivable and other receivables are assessed at each reporting date to determine whether there is any objective evidence of impairment. Financial assets are impaired if objective evidence indicates that a loss event has occurred after the initial recognition of the asset and that the loss event had a negative effects on the estimated future cash flows of that asset, that can be estimated reliably. Objective evidence that financial assets are impaired can include default or delinquency by a debtor, indications that a debtor or issuer will enter bankruptcy, etc.

(b) Non-financial assets

An asset is impaired when its carrying amount exceeds its recoverable amount. The company assesses at each reporting date whether there is any indication that an asset may be impaired. If any such indication exists, the company estimates the recoverable amount of the asset. The recoverable amount of an asset is the higher of its fair value less costs to sell and its value in use.

Carrying amount of the assets is reduced to its recoverable amount by recognizing an impairment loss if, and only if, the recoverable amount of the asset is less than its carrying amount. Impairment loss is recognized immediately in profit or loss, unless the asset is carried at revalued amount. Any impairment loss of a revalued asset is treated as a revaluation decrease.

3.22 Workers' profit participation fund and welfare fund

The company provides 5% of its profit before charging such expenses as a contribution to profit participation and welfare funds in accordance with The Bangladesh Labor Act 2006, amended in 2013.

3.23 Comparative information

Comparative information has been disclosed in respect of year 2015-2016 for all numerical information of the financial statements and also the narrative and descriptive information when it is relevant for understanding of the current period's financial statements. Last year figures have been rearrange where considered necessary to conform to current years presentation.

### 3.24 General

- i. Figures have been rounded off to the nearest Taka.
- ii. Previous period's figures have been rearranged wherever considered necessary to conform to the current year's presentation.

**37. Financial risk management**

The management of the company has overall responsibility for the establishment and oversight of the company's risk management framework. The company's risk management policies have been established to identify and analyse the risks faced by the company, to set appropriate risk limits and controls, and to monitor risks and adherence to limits. Risk management policies, procedures and systems are reviewed regularly to reflect changes in market conditions and the company's activities. The company has exposure to the following risks from its use of financial instruments.

- \*Credit Risk
- \*Interest Rate Risk
- \*Currency Risk
- \*Liquidity/funding risk
- \*Market risk

### 37.1 Credit risk

Credit risk is the risk of a financial loss to the company if a client or counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from the company's receivables.

As the company is involved in 100% export oriented business, all the sales are made against Letter of Credit (L/C). L/Cs provide guarantee against credit sales and minimise the credit risk to an acceptable level. Bills receivable arises due to the time difference between submission of bills to the bank for collection of proceeds and actual realisation of the proceeds.

The carrying amount of financial assets represents the maximum credit exposure. The maximum exposure to credit risk at the reporting date was:

		<b>30.06.2017</b> <b>Taka</b>	<b>30.06.2016</b> <b>Taka</b>
Accounts receivables	(Note: 7)	835,188,043	638,888,277
Advance, deposit and prepayment	(Note: 9)	327,478,318	247,271,679
Cash & Bank Balances	(Note: 11)	66,217,826	55,328,634
		<b>1,228,884,187</b>	<b>941,488,591</b>

The maximum exposure to credit risk for trade and other receivables as at the statement of financial position date by geographic regions was:

Domestic	475,466,218	244,118,760
Foreign	753,417,968	697,369,831
	<b>1,228,884,187</b>	<b>941,488,591</b>

### 37.2 Liquidity risk

Liquidity risk is the risk that the company will not be able to meet its financial obligations as they falls due. The company's approach to managing liquidity (cash and cash equivalents) is to ensure, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the company's reputation. Typically, the company ensures that it has sufficient cash and cash equivalents to meet expected operational expenses, including financial obligations through preparation of the cash flow forecast based on time line of payment of the financial obligation and accordingly arrange for sufficient liquidity/fund to make the expected payment within due date.

The following are the contractual maturities of financial liabilities of the company:

#### As on 30 June 2017

	<b>Contractual cash flows (Taka)</b>	<b>1 year or less</b> <b>Taka</b>	<b>More than 1 year</b> <b>Taka</b>

### 37.3 Market risk

Market risk is the risk that any change in market prices, such as foreign exchange rates and interest rates will affect the company's income or the value of its holdings of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters.

In the past, in some occasion large buyers of different RMG exporters has decided to withdraw business, or has become bankrupt or were subject to regulatory injunction from importing from Bangladesh, creating a strong impact on the exporter. For EKCL single buyer concentration is not a major issue and they have longstanding relationship with overseas buyers. All of them regard EKCL as their global partners and the relationship can only be disrupted if EKCL fails to perform its commitments. Also, because of its dominant position in the export market it is always sought after by many buyers.

### 37.4 Currency risk

### 37.5 Business Risk

Managing Compliance – Currently RMG buyers specially the large buyers are very demanding and constantly tightening the compliance criteria. EKCL has been in the forefront of compliance among the RMG exporters in the county. They have compliant plants with effluent water treatment facility, childcare facility, adequate ventilation, spacious infrastructure lay out, etc. Till now they were able to meet all the compliance challenge in their 30 year plus business experience and is likely to do so in the coming years. EKCL mitigates compliance risk since it is WRAP certified and passed other audits from Department of Environment (DOE) and overseas buyers.

Achievement of sales volume – Historically, EKCL has been successful to achieve its sales target after expansion as most of its expansions are planned after receiving order indications from its buyers.

### 37.6 Interest Rate Risk

EKCL is enjoying banks finance in the form of working capital as well as term loan. As a bank fund borrower, the entity has to pay a significant amount of loan interests and charges. Bangladesh Bank has moved to remove the interest rate ceiling on lending in the wake of a massive liquidity crisis in the financial market letting the price to be determined by functioning of demand-supply interaction. This measure may invite interest rate instability, which may create volatility in the profitability of business like EKCL. It is the company risk of gain or losses on assets and liabilities due to changes in interest rates.

	30.06.2017 Taka	30.06.2016 Taka
<b>Exposure of Interest Rate Risk</b>		
Fixed Rate Bearing		
Term Loan	550,597,739	578,939,023
Short Term Loan	1,038,550,696	859,968,197

### 37.7 Operation Risk

Technology is a continuous process of development. Innovation of new and cost effective technology may obsolete existing technology, which may cause negative impact on the business. The project is equipped with good machineries and technology to cope with the modern textile world. The management both in head office and production premises seem to be competent and maintain the standard level of quality and to run the operations effectively. However, in order to reduce the operational risk, the company is yet to ensure an external control mechanism. The company has minimum exposure to operational risk.

### 37.8 Raw Material Supply Risk

The company receives yarn, dyes & chemicals both from local as well as foreign suppliers. Import based supplies are likely to be affected by any uncontrollable event or country risk to transaction or political barrier. Since inception the company did not face any such uncontrollable events so far because of maintaining good supply chain relationship with the suppliers of raw materials and in exceptional cases, it is confident to make alternative arrangement at shorter notice.

### 37.9 Exchange Rate Risk

Exchange rate risk arises from currency fluctuation in international trade. If Bangladeshi Taka is devalued and/or foreign currency revalued than the price of imported raw materials will go up which will decrease the overall profit margin. As the company is dependent upon the import for yarn, dyes, chemicals & accessories and in future it will be the same, volatility of exchange rate will have an impact on profitability of the company. For last couple of years, Bangladeshi Taka found carrying floated value and expected to follow the same which expose the company to significant exchange rate risk.

### 37.10 Power Generation Risk

The industrial bases of Bangladesh are mainly aided by natural gas-driven power generation which causes disruption occasionally and the weaving industry is not an exception. Smooth availability of gas will ensure the maximum functioning of the machineries. EKCL uses natural gas to produce power from captive power plant. Currently a circular from government has emerged to arrange alternate of gas due to recent acute gas crisis. The company is connected with 15 PSI gas line and currently does not any problem of gas pressure. So other things being constant, EKCL does not foresee significant risk for power generation.

### **38. Contingent liabilities**

The business of the company is exempted on VAT payment on supplier payment as 100% export oriented company (SRO#170/Law/2000/269 Mushok dated 08.06.2009) but at the time of assessment of the company income tax for the assessment year 2014-15, the deputy commissioner of taxes (DCT) disallowed supply of maintenance items, spareparts, and consumable items of Tk.10,376,717 & Tk.6,786,150 and Tk.8,708,236 respectively. Salary and wages disallowed u/s 30(a), 30(e) and 30(i) though salary paid through banking channel above Tk.15,000 & required income tax deducted as well as deposited into government exchequer. But a demand note had been issued by DCT for an amount of Tk.14,769,609 without considering advance tax payment against vehicle Tk. 808,500 & FDR interest Tk.1,537,324 and import stage Tk.740,843.

Subsequently, the company has filed an appeal to commissioner (Appeal) dated 01.06.16, Appeal # 812/Cir-178/Tax:appeal:9/2015-16 which is settled.

Note:

- The individual ratio of Esquire Knit Composite Limited has been calculated based on Audited Financial Statements of last five years (31 December 2015, 31 December 2014, 31 December 2013, 31 December 2012).
- Out of 4363 nos. RMG companies in Bangladesh as per BGMEA record, only 48 no's RMG company are listed in the Stock Exchange. Out of the 48 listed companies, only 8 companies business nature are similar with EKCL.
- Out of 8 peer companies, we have selected 2 Companies, i.e., 1) Hwa well Textile (BD) Limited and 2) Toshirifa Industries Limited for calculation of industry average. The consideration factors are as follows:
  - Business nature is mostly similar. I.e, Composite knit garments and 100% export oriented RMG
  - EPS and NAV is mostly similar
- The Industry average ratio is calculated through using the ratio of two listed similar companies namely Hwa well Textile (BD) Limited for the year ended 30 June 2015, 30 June 2014, 30 June 2013, 30 June 2012 and Toshirifa Industries Limited for the year ended 31 December 2015, 31 December 2014, 31 December 2013, 31 December 2012. (Source: Annual Report)
- The six months period of 31 December 2016 and 30 June 2016 of Esquire Knit Composite Limited is not considered because the selected peer companies' financial year is not comparable with the company.
- 30 June 2017 financial data is not considered due to Audited Financial Statements as on 30 June 2017 of Hwa Well Textile (BD) Limited and Toshirifa Industries Limited yet to be published.

## **Explanation of the ratios**

Industry average ratios have been calculated taking into account the financials of two peer companies listed with the stock exchanges as mentioned above. It is to be noted that, right now, substantial number of companies of the industry are out of capital market and only 48 companies listed in the capital market. Sector average is considerable here on the basis of such related business similar to the business of Esquire Knit Composite Limited included in the textile sector as well as NAV and EPS considerable to similar with the EKCL.

From the results of ratios, it has been observed that most of the ratios of EKCL are favorable reflecting satisfactory financial position. However, EKCL's current and quick ratio is consistent over the period meaning the company readily available to pay off its short-term liabilities. The interest earned ratio of EKCL is at satisfactory level meaning its ability to meet interest expenses may not be questionable. The debt to equity ratio shows the better leverage position of the company.

Operating ratios assess the efficiency of operations of the business of EKCL. The high value of accounts receivable turnover ratio is favorable indicates improvement in the process of cash collection on credit sales of the company. The inventory turnover ratio of EKCL means that the business is managing efficiently its inventories. The higher asset turnover ratio is generally better meaning efficient use of fixed assets compared to industry average.

Overall profitability position of the Company has been steady over last five years compared to industry average indicated by gross profit margin of 21.88%, operating profit margin of 9.82% and net profit margin of 5.71% in 2015. The EBITDA margin is lower than the industry average over the year due to operating expenditures.

The individual EPS of EKCL is quite satisfactory than the industry average seeing consistent over the year. Again, in case of return on equity, EKCL's ratio is satisfactory in over the five years compared to industry average.

Cash flow ratios are mainly used to assess the quality of earnings of the business of the company which provides an unbiased assessment about EKCL's performance. In case of net operating cash flow per share, EKCL's ratio is satisfactory over the year 2011-2015 compared to industry average. The cash flow and other coverage indicators reveal low credit risk profile of the Company.

#### ■ PROFILE

Esquire Knit Composite Limited (hereinafter referred as 'EKCL' or 'the Company') is an export oriented knit garments manufacturer. The Company has its own knitting, dyeing and finishing facilities. EKCL runs under the flagship of Esquire Group which has strong position in garments, plastics, consumer durables marketing and information technology. The Company has its own knitting, dyeing and finishing facilities.

#### ■ RATIONALE

Credit Rating Agency of Bangladesh Limited (CRAB) has reaffirmed A<sub>1</sub> (Pronounced as Single A One) rating of Esquire Knit Composite Limited, A<sub>1</sub>(Lr) rating for BDT 947.3 million aggregate long term outstanding (LTO) and BDT 100.0 million aggregate cash credit limit availed by the Company in the Long Term. CRAB has also assigned ST-3 rating to BDT 797.0 million aggregate fund based limits and BDT 1,718.0 million aggregate non-fund based limits availed by the Company in the Short Term.

#### Credit Strengths

1. More than a decade of presence in RMG industry with strong synergy exposure from the other concerns of the group.
2. Structured value chain created by two concerns of Esquire Group- Esquire Dyeing Industries Ltd (EDIL) and Esquire Accessories Ltd. (EAL) in terms of procurement of raw materials.
3. Stable revenue growth over the years with increasing cash flow from operation in FY 2018.
4. Sound credit risk profile led by 0.3x debt ratio and 0.5x borrowed fund to EBITD ratio.

#### Credit Concerns

1. Moderate level of leverage position.
2. Labour unrest or strikes may make the industry vulnerable and susceptible to competitive pressure which arises from other low cost countries with lower foreign exchange rate fluctuation.

The revenue of EKCL has grown by 8.7% in 2018 from previous year maintaining stable growth in business. No notable changes in business model during this surveillance period with same scale of business operations compared to the previous year supported to retain the long term and short term ratings.

Rating also factors on-going spending on capital machineries in absolute amount in accumulated figure of BDT 290.89 million as Capex in 2018 as per the audited financial statements. Such initiatives ensure the quality of EKCL's products and also help the Company to maintain compliance with its buyer class. As per the audited financial statements of 2018, reported capital composition of the Company was equity dominated as borrowed fund was reported 0.3x times of equity. However, borrowed fund to adjusted equity ratio marked at 0.5x times as of 30 June 2018 revealing moderate level of leverage position of the Company. The times interest coverage ratio of the Company stood at 4.4x times in 2018 reflecting cushion to meet up present level of debt obligation.

Going forward, the Company's ability to continue positive growth in revenue through retaining its biggest customers, its ability to improve the cash flows and leverage position through improving the operating profitability, timely enhancement of the working capital limits will have impact on future rating consideration, and vice versa.

Note: Calculation Considerations-

- \*Adjusted Equity is adjusted with Revaluation Reserve.
- Borrowed Fund = Long Term Loan + Current Portion of Long Term Loan + Short Term Loan.
- Some figures might be found changed as the financial statement of previous year (restated figure) was considered from latest annual report.
- Cash Flow from Operation is calculated as Net Profit after Tax plus Depreciation Expenses plus Net Changes in Working Capital (Considering the net changes in Inventory, Advances, Deposits and Prepayments, Account Receivables, as well as Accounts Payable, Liabilities for Expenses and Provision for Tax).

CRAB RATING SCALES AND DEFINITIONS –Long Term (Corporate)

Long Term Rating	Definition
AAA Triple A	Companies rated in this category have extremely strong capacity to meet financial commitments. These companies are judged to be of the highest quality, with minimal credit risk.
AA <sub>1</sub> , AA <sub>2</sub> , AA <sub>3</sub> Double A	Companies rated in this category have very strong capacity to meet financial commitments. These companies are judged to be of very high quality, subject to very low credit risk.
A <sub>1</sub> , A <sub>2</sub> , A <sub>3</sub> * Single A	Companies rated in this category have strong capacity to meet financial commitments, but are susceptible to the adverse effects of changes in circumstances and economic conditions. These companies are judged to be of high quality, subject to low credit risk.
BBB <sub>1</sub> , BBB <sub>2</sub> , BBB <sub>3</sub> Triple B	Companies rated in this category have adequate capacity to meet financial commitments but more susceptible to adverse economic conditions or changing circumstances. These companies are subject to moderate credit risk. Such companies possess certain speculative characteristics.
BB <sub>1</sub> , BB <sub>2</sub> , BB <sub>3</sub> Double B	Companies rated in this category have inadequate capacity to meet financial commitments. Have major ongoing uncertainties and exposure to adverse business, financial, or economic conditions. These companies have speculative elements, subject to substantial credit risk.
B <sub>1</sub> , B <sub>2</sub> , B <sub>3</sub> Single B	Companies rated in this category have weak capacity to meet financial commitments. These companies have speculative elements, subject to high credit risk.
CCC <sub>1</sub> , CCC <sub>2</sub> , CCC <sub>3</sub> Triple C	Companies rated in this category have very weak capacity to meet financial obligations. These companies have very weak standing and are subject to very high credit risk.
CC Double C	Companies rated in this category have extremely weak capacity to meet financial obligations. These companies are highly speculative and are likely in, or very near, default, with some prospect of recovery of principal and interest.
C Single C	Companies rated in this category are highly vulnerable to non-payment, have payment arrearages allowed by the terms of the documents, or subject of bankruptcy petition, but have not experienced a payment default. Payments may have been suspended in accordance with the instrument's terms. These companies are typically in default, with little prospect for recovery of principal or interest.
D (Default)	D rating will also be used upon the filing of a bankruptcy petition or similar action if payments on an obligation are jeopardized.

*\*Note: CRAB appends numerical modifiers 1, 2, and 3 to each generic rating classification from AA through CCC. The modifier 1 indicates that the obligation ranks in the higher end of its generic rating category; the modifier 2 indicates a mid-range ranking; and the modifier 3 indicates a ranking in the lower end of that generic rating category.*

**LONG-TERM RATING: LOANS/FACILITIES FROM BANKS/FIS**  
(All loans/facilities with original maturity exceeding one year)

RATINGS	DEFINITION
<b>AAA (Lr)</b> (Triple A) Highest Safety	Loans/facilities rated AAA (Lr) are judged to offer the highest degree of safety, with regard to timely payment of financial obligations. Any adverse changes in circumstances are unlikely to affect the payments on the loan facility.
<b>AA (Lr)</b> (Double A) High Safety	Loans/facilities rated AA (Lr) are judged to offer a high degree of safety, with regard to timely payment of financial obligations. They differ only marginally in safety from AAA (Lr) rated facilities.
<b>A (Lr)*</b> Adequate Safety	Loans/facilities rated A (Lr) are judged to offer an adequate degree of safety, with regard to timely payment of financial obligations. However, changes in circumstances can adversely affect such issues more than those in the higher rating categories.
<b>BBB (Lr)</b> (Triple B) Moderate Safety	Loans/facilities rated BBB (Lr) are judged to offer moderate safety, with regard to timely payment of financial obligations for the present; however, changing circumstances are more likely to lead to a weakened capacity to pay interest and repay principal than for issues in higher rating categories.
<b>BB (Lr)</b> (Double B) Inadequate Safety	Loans/facilities rated BB (Lr) are judged to carry inadequate safety, with regard to timely payment of financial obligations; they are less likely to default in the immediate future than instruments in lower rating categories, but an adverse change in circumstances could lead to inadequate capacity to make payment on financial obligations.
<b>B (Lr)</b> High Risk	Loans/facilities rated B (Lr) are judged to have high risk of default; while currently financial obligations are met, adverse business or economic conditions would lead to lack of ability or willingness to pay interest or principal.
<b>CCC (Lr)</b> Very High Risk	Loans/facilities rated CCC (Lr) are judged to have factors present that make them very highly vulnerable to default; timely payment of financial obligations is possible only if favorable circumstances continue.
<b>CC (Lr)</b> Extremely High Risk	Loans/facilities rated CC (Lr) are judged to be extremely vulnerable to default; timely payment of financial obligations is possible only through external support.
<b>C (Lr)</b> Near to Default	Loans/facilities rated C (Lr) are currently highly vulnerable to non-payment, having obligations with payment arrearages allowed by the terms of the documents, or obligations that are subject of a bankruptcy petition or similar action but have not experienced a payment default. C is typically in default, with little prospect for recovery of principal or interest. C (Lr) are typically in default, with little prospect for recovery of principal or interest.
<b>D (Lr)</b> Default	Loans/facilities rated D (Lr) are in default or are expected to default on scheduled payment dates.

\*Note: CRAB appends numerical modifiers 1, 2, and 3 to each generic rating classification from AA through CCC. The modifier 1 indicates that the obligation ranks in the higher end of its generic rating category; the modifier 2 indicates a mid-range ranking; and the modifier 3 indicates a ranking in the lower end of that generic rating category.

**SHORT-TERM CREDIT RATING: LOANS/FACILITIES OF BANKS/FIS**  
(All loans/facilities with original maturity within one year)

	DEFINITION
<b>ST-1</b> Highest Grade	This rating indicates that the degree of safety regarding timely payment on the loans/facilities is very strong.
<b>ST-2</b> High Grade	This rating indicates that the degree of safety regarding timely payment on the loans/facilities is strong; however, the relative degree of safety is lower than that for issues rated higher.
<b>ST-3*</b> Adequate Grade	This rating indicates that the degree of safety regarding timely payment on the loans/facilities is adequate; however, the issues are more vulnerable to the adverse effects of changing circumstances than issues rated in the two higher categories.
<b>ST-4</b> Marginal	This rating indicates that the degree of safety regarding timely payment on the loans/facilities is marginal; and the issues are quite vulnerable to the adverse effects of changing circumstances.
<b>ST-5</b> Inadequate Grade	This rating indicates that the degree of safety regarding timely payment on the loans/facilities is minimal, and it is likely to be adversely affected by short-term adversity or less favorable conditions.
<b>ST-6</b> Lowest Grade	This rating indicates that the loans/facilities are expected to be in default on maturity or is in default.

## Public Issue Application Process

### Step-1 (Applicant)

1. An applicant for public issue of securities shall submit application/buy instruction to the Stockbroker/ Merchant Banker where the applicant maintains customer account, within the cut-off date (i.e. the subscription closing date), which shall be the **25<sup>th</sup> (twenty fifth) working day** from the date of publication of abridged version of prospectus.
2. The application/buy instruction may be submitted in prescribed paper or electronic form, which shall contain the Customer ID, Name, BO Account Number, Number of Securities applied for, Total Amount and Category of the Applicant. At the same time:
  - a) Other than non-resident Bangladeshi (NRB) and Foreign applicants shall make the application money and service charge available in respective customer account maintained with the Stockbroker/Merchant Banker. No margin facility, advance or deferred payment is permissible for this purpose. In case the application is made through a margin account, the application money shall be deposited separately and the Stockbroker/Merchant Banker shall keep the amount segregated from the margin account, which shall be refundable to the applicant, if become unsuccessful.
  - b) Non-resident Bangladeshi (NRB) and Foreign applicants shall submit bank drafts (FDD), issued in favor of the Issuer for an amount equivalent to the application money, with their application to the concerned Stockbroker/Merchant Banker. A Non-resident Bangladeshi (NRB) and Foreign applicant may also submit a single draft against 02(two) applications made by him/her, i.e. one in his/her own name and the other jointly with another person. The draft (FDD) shall be issued by the Bank where the applicant maintains Foreign Currency account debiting the same account **and provide the customer with a certificate mentioning the FC account number which has been debited to issue the FDD. The applicant shall also submit the certificate with their application.** No banker shall issue more than two drafts from any Foreign Currency account for any public issue. At the same time, the applicant shall make the service charge available in respective customer account maintained with the Stockbroker/Merchant Banker.
  - c) Eligible investors shall submit application through the electronic subscription system of the exchange(s) and deposit the full amount intended to subscribe by the method as determined by exchange(s).

### Step-2 (Intermediary)

3. The Stockbroker/Merchant Banker shall maintain a separate bank account only for this purpose namely "Public Issue Application Account". The Stockbroker/Merchant Banker shall:
  - d) post the amount separately in the customer account (other than NRB and Foreign applicants), and upon availability of fund, block the amount equivalent to the application money;
  - e) accumulate all the application/buy instructions received up to the cut-off date, deposit the amount in the "Public Issue Application Account" maintained with its bank within the first banking hour of **next working day** of the cut-off date;
  - f) instruct the banker to block the account for an amount equivalent to the aggregate application money and to issue a certificate in this regard.
4. Banker of the Stockbroker/Merchant Banker shall block the account as requested for, issue a certificate confirming the same and handover it to the respective Stockbroker/Merchant Banker.
5. For Non-resident Bangladeshi (NRB) and Foreign applicants, the Stockbroker/Merchant Banker shall prepare a list containing the draft information against the respective applicant's particulars.
6. The Stockbroker/Merchant Banker shall prepare category wise lists of the applicants containing Customer ID, Name, BO Account Number and Number of Securities applied for, and within 03 (three) working days from the cut-off date, send to the respective Exchange, the lists of applicants in electronic (text format with tilde '~' separator) format, the

certificate(s) issued by its banker, the drafts **and certificates** received from Non-resident Bangladeshi (NRB) and Foreign applicants and a copy of the list containing the draft information.

7. **On the next working day**, the Exchanges shall provide the Issuer with the information received from the Stockbroker/Merchant Bankers, the drafts **and certificates** submitted by Non-resident Bangladeshi (NRB) and Foreign applicants and the list containing the draft information. Exchanges shall verify and preserve the bankers' certificates in their custody.
8. The application/buy instructions shall be preserved by the Stockbroker/Merchant Bankers up to 6 months from listing of the securities with exchange.

#### **Step-3 (Issuer)**

9. The Issuer shall prepare consolidated list of the applications and send the applicants' BOIDs in electronic (text) format in a CDROM to CDBL for verification. The Issuer shall post the consolidated list of applicants on its website and websites of the Exchanges. CDBL shall verify the BOIDs as to whether the BO accounts of the applicants are active or not.
10. **On the next working day**, CDBL shall provide the Issuer with an updated database of the applicants containing BO Account Number, Name, Addresses, Parents' Name, Joint Account and Bank Account information along with the verification report.
11. After receiving verification report and information from CDBL, the Issuer shall scrutinize the applications, prepare category wise consolidated lists of valid and invalid applications and submit report of final status of subscription to the Commission and the Exchanges **within 10 (ten) working days** from the date of receiving information from the Exchanges.
12. The Issuer and the issue manager shall conduct category wise lottery with the valid applications **within 03 (three) working days** from the date of reporting to the Commission and the Exchanges, if do not receive any observation from the Commission or the Exchanges.
13. The Issuer and issue manager shall arrange posting the lottery result on their websites within **06 (six) hours** and on the websites of the Commission and Exchanges within **12 (twelve) hours** of lottery.
14. Within **02 (two) working days** of conducting lottery, the Issuer shall:
  - e) send category wise lists of the successful and unsuccessful applicants in electronic (text format with tilde '~' separator) format to the respective Exchange.
  - f) send category wise lists of unsuccessful applicants who are subject to penal provisions as per conditions of the Consent Letter issued by the Commission in electronic (text format with tilde '~' separator) format to the Commission and Exchanges mentioning the penalty amount against each applicant.
  - g) issue allotment letters in the names of successful applicants in electronic format with digital signatures and send those to respective Exchange in electronic form.
  - h) send consolidated allotment data (BOID and number of securities) in electronic text format in a CDROM to CDBL to credit the allotted shares to the respective BO accounts.

#### **Step-4 (Intermediary)**

15. **On the next working day**, Exchanges shall distribute the information and allotment letters to the Stockbroker/Merchant Bankers concerned in electronic format and instruct them to:

- c) remit the amount of successful (other than NRB and Foreign) applicants to the Issuer's respective Escrow Account opened for subscription purpose, and unblock the amount of unsuccessful applicants;
  - d) send the penalty amount of other than NRB and Foreign applicants who are subject to penal provisions to the Issuer's respective Escrow Accounts along with a list and unblock the balance application money;
16. **On the next working day** of receiving the documents from the Exchanges, the Stockbrokers/Merchant Banker shall request its banker to:
- c) release the amount blocked for unsuccessful (other than NRB and foreign) applicants;
  - d) remit the aggregate amount of successful applicants and the penalty amount of unsuccessful applicants (other than NRB and foreign) who are subject to penal provisions to the respective 'Escrow' accounts of the Issuer opened for subscription purpose.
17. **On the next working day** of receiving request from the Stockbrokers/Merchant Bankers, their bankers shall unblock the amount blocked in the account(s) and remit the amount as requested for to the Issuer's 'Escrow' account.
18. **Simultaneously**, the stockbrokers/Merchant Bankers shall release the application money blocked in the customer accounts; inform the successful applicants about allotment of securities and the unsuccessful applicants about releasing their blocked amounts and send documents to the Exchange evidencing details of the remittances made to the respective 'Escrow' accounts of the Issuer. The unblocked amounts of unsuccessful applicants shall be placed as per their instructions. The Stockbroker/Merchant Banker shall be entitled to recover the withdrawal charges, if any, from the applicant who wants to withdraw the application money, up to an amount of Tk. 5.00 (five) per withdrawal.
19. All drafts submitted by NRB or Foreign applicants shall be deposited in the Issuer's respective 'Escrow' accounts and refund shall be made by the Issuer by refund warrants through concerned stockbroker or merchant banker or transfer to the applicant's bank account (**FC account which has been debited to apply by NRB or foreign applicants**) through banking channel within 10 (ten) working days from the date of lottery.

#### **Miscellaneous:**

- 20. The Issuer, Issue Manager(s), Stockbrokers and Merchant Bankers shall ensure compliance of the above.
- 21. The bank drafts (FDD) shall be issued considering TT Clean exchange rate of Sonali Bank Ltd. on the date of publication of abridged version of prospectus.
- 22. Amount deposited and blocked in the "Public Issue Application Account" shall not be withdrawn or transferred during the blocking period. Amount deposited by the applicants shall not be used by the Stockbrokers/Merchant Bankers for any purpose other than public issue application.
- 23. The Issuer shall pay the costs related to data transmission, if claimed by the Exchange concerned up to an amount of Tk.2,00,000.00 (taka two lac) for a public issue.
- 24. The Stockbroker/Merchant Bankers shall be entitled to a service charge of Tk.5.00 (taka five) only per application irrespective of the amount or category. The service charge shall be paid by the applicant at the time of submitting application.
- 25. The Stockbroker/Merchant Banker shall provide the Issuer with a statement of the remittance and drafts sent.
- 26. The Issuer shall accumulate the penalty amount recovered and send it to the Commission through a bank draft/payment order issued in favor of the Bangladesh Securities and Exchange Commission.
- 27. The concerned Exchange are authorized to settle any complaints and take necessary actions against any Stockbroker/Merchant Banker in case of violation of any provision of the public issue application process with intimation to the Commission.

**Independent Auditor's Report  
And Audited Financial Statements of  
Esquire Knit Composite Limited  
For the year ended 30 June 2018**

# **Independent Auditor's Report**

To the Shareholders of  
Esquire Knit Composite Limited

We have audited the financial statements of Esquire Knit Composite Limited, which comprise the statement of financial position as at 30 June 2018, the statement of profit or loss and other comprehensive income, statement of changes in equity and statement of cash flows for the year then ended and a summary of significant accounting policies and other explanatory information.

## **Management's Responsibilities for the Financial Statements**

Management is responsible for the preparation of financial statements that give a true and fair view in accordance with International Financial Reporting Standards (IFRSs), the Companies Act 1994, the Securities and Exchange Rules, 1987 and other applicable laws and regulations and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

## **Auditor's Responsibility**

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with International Standards on Auditing (ISA). Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation of financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

## **Opinion**

In our opinion, the financial statements referred to above give a true and fair view of the financial position of Esquire Knit Composite Limited as at 30 June 2018, and of its financial performance and its cash flows for the year then ended in accordance with International Financial Reporting Standards (IFRSs).

### **Report on Other Legal and Regulatory Requirements**

We also report that the financial statements comply with the Companies Act 1994, the Securities and Exchange Rules, 1987 and other applicable laws and regulations. We, as required by law, further report that:

- (e) we have obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit and made due verification thereof;
- (f) in our opinion, proper books of account as required by law have been kept by the Company so far as it appeared from our examination of those books;
- (g) the statement of financial position and the statement of profit or loss and other comprehensive income dealt with by the report are in agreement with the books of account maintained by the company and examined by us; and
- (h) the expenditure incurred was for the purpose of the company's business.

- The Bangladesh Labor (Amendment) Act 2013;
- Customs Act 1969;
- Sale of Goods Act 1930;
- Negotiable Instrument Act 1881; and
- Other applicable rules and regulations.

## 2.3 Basis of measurement

These financial statements have been prepared under the historical cost convention applying accrual basis of accounting in accordance with International Financial Reporting Standards (IFRSs).

## 2.4 Components of financial statements

The financial statements of the Company consist of the following components:

- Statement of Financial Position;
- Statement of Profit or Loss and Other Comprehensive Income;
- Statement of Changes in Equity;
- Statement of Cash Flows and
- Notes to the Financial Statements.

## 2.5 Use of estimates and judgments

The preparation of the financial statements of the Company requires management to make and apply consistently the judgments, estimates and assumptions for records and balances that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

## 2.6 Functional and presentation currency

These financial statements are presented in Bangladeshi Taka (Tk/BDT) which is the functional currency of the company. The amounts in these financial statements have been rounded off to the nearest integer.

# 3. **Significant Accounting Policies**

## 3.1 Property, plant and equipment (PPE)

### 3.1.1 Recognition and measurement

Property, plant and equipment are stated at cost or revalued amount, if any, less accumulated depreciation in compliance with International Accounting Standard (IAS)-16: Property Plant and Equipment. The cost of acquisition of an asset comprises its purchase price and any direct attributable cost of bringing the assets to its working condition for its intended use.

### 3.1.2 Subsequent costs

The cost of replacing a part of an item of property, plant and equipment is recognized in the carrying amount of the item if it is probable that future economic benefits associated with the item will flow to the entity and the cost of the item can be measured reliably. All other repair and maintenance costs are charged to the Statement of Profit or Loss and Other Comprehensive Income during the financial period in which they incurred.

### 3.1.3 Depreciation

Depreciation is charged on property (except land), plant and equipment using 'straight line method' over the estimated useful life of each item of property, plant and equipment. Depreciation on addition to property, plant and equipment is charged from the date when the asset is put into use for commercial operation. In preceeding years, the entity charged depreciation at 20% p.a. on motor vehicles. From the year 2015 the management of Esquire Knit Composite Limited, considering the useful lives, decided to charge depreciation at 15% p.a. on motor vehicles instead of 20% p.a & 6.67% on Plant & Machineries instead of 10% and necessary adjustment for such changes in accounting estimate was given in the financial statement for the concerned year. No depreciation is charged on the assets from the month in which such assets are disposed. The rates of depreciation varies from 5% to 15% p.a. based on useful lives and nature of the assets. Rates of depreciation are:

<b><u>Particulars</u></b>	<b><u>Rate</u></b>
Building	5.00% p.a.
Plant and Machinery	6.67% p.a.
Furniture and Fixtures	10.00% p.a.
Office Equipment	10.00% p.a.
Generator and Water Treatment	6.67% p.a.
Motor Vehicle	12.50% p.a.

### 3.2 Inventories

#### 3.2.1 Nature of inventories

Inventories consist of yarn, dyes, chemical, packing materials, accessories, sewing thread, printing & embroidery materials, stores and spare parts, etc.

#### 3.2.2 Valuation of inventory

Inventories are valued in accordance with IAS- 2: Inventories i.e. at cost or estimated net realizable value whichever is lower. The cost of inventories includes expenditure for acquiring the inventories and bringing them to their existing location and condition. Net realizable value is estimated upon selling price in the ordinary course of business less estimated cost of completion of the sale. When the inventories are used, the carrying amount of those inventories are recognized as expenses in the period in which the related revenue is recognized.

### 3.3 Advance, deposit and prepayments

Advances are initially measured at cost. After initial recognition advances are carried at cost less deductions or adjustments. Deposits are measured at payment value. Prepayments are initially measured at cost. After initial recognition prepayments are carried at cost less charges to Statement of Profit or Loss and Other Comprehensive Income.

### 3.4 Cash and bank balances

Cash and bank balances comprise cash in hand and cash at bank which are held and available for use by the company without any restriction.

### 3.5 Accounts receivable and other receivables

Accounts receivables are carried at original invoice amount. EKCL is a 100% export oriented company and all the sales/exports are done through L/C by banks. Receivables are considered as good and realizable. Other receivable represents accrued interest on FDR.

### 3.6 Accounts payable and other payables

These liabilities are recorded at the amount payable for settlement in respect of goods and services received by the company.

### 3.7 Loans and borrowings

Borrowings repayable after twelve months from the date of statement of financial position are classified as non-current liabilities whereas the portion of borrowings repayable within twelve months from the date of statement of financial position, unpaid interest and other charges are classified as current liabilities.

### 3.8 Income tax expense

Income tax expenses comprise current tax and deferred tax. Income taxes are recognized in statement of profit or loss and other comprehensive income except to the extent that relates to items recognized directly in equity or in other comprehensive income.

### 3.8.1 Current Tax

Taxation is provided in accordance with fiscal regulations applicable. The company taxation is under final settlement of tax liability under section 82C of the Income Tax Ordinance 1984 except other income. Income tax has been deducted at source under section 53BB of the Income Tax Ordinance 1984 on export from 1 July 2016 to 30 June 2017 and from 1 July 2017 to 30 June 2018 at 0.70% and from 01 July 2018 to 30 June 2019 it will be @ 1%.

### 3.8.2 Deferred Tax

Deferred tax has been recognized in accordance with the provision of IAS 12: Income Taxes, based on the deductible or taxable temporary difference between the carrying amount of assets / liabilities and its tax base. Deferred tax asset or liability is the amount of income tax recoverable or payable in the future periods recognized in the current period. Deferred tax asset or liability does not create a legal recoverability or liability from or to tax authority. Related deferred tax income / expense is recognized in the statement of profit or loss and other comprehensive income. Deferred tax assets and liabilities are offsetted if there is a legally enforceable right to offset current tax liabilities and assets, and they relate to income taxes levied by the same tax authority on the same taxable entity.

A deferred tax asset is recognised to the extent that it is probable that future taxable profits will be available against which the deductible temporary difference can be utilised. Deferred tax assets are reviewed at each date of statement of financial position and are reduced to the extent that it is no longer probable that the related tax benefit will be realised.

### 3.9 Revenue

In compliance with the requirements of IAS-18: Revenue is recognized only when:

- i. Significant risk and rewards of ownership associated with the goods is transferred to the buyer;
- ii. The amount of revenue and the cost of the transaction can be measured reliably;
- iii. Sale of goods of the company usually occurs at the time of delivery of goods along with invoice, packing list and bill of lading; and
- iv. It is probable that the economic benefits associated with the transaction will flow to the company.

### 3.10 Financial expenses

Financial expenses comprise interest expense on long term loan, short term loan, finance lease and bank commission and charges, etc. All such costs are recognized in the statement of profit or loss and other Comprehensive Income except those are capitalized in accordance with IAS- 23: Borrowing Costs.

### 3.11 Statement of Cash flows

Statement of cash flows is prepared principally in accordance with IAS-7: Cash Flow Statement and the cash flows from operating activities are presented under direct method.

### 3.12 Foreign currency transactions

The financial statements are presented in Bangladeshi Taka (Tk./BDT), which is the company's functional currency. Transactions in foreign currencies are recorded in the books at the exchange rate prevailing on the date of the transaction. Assets and liabilities in foreign currencies as on the reporting date are converted into Bangladeshi taka at the closing rate. Exchange gain or loss is recognised in Statement of Profit or Loss and Other Comprehensive Income as per IAS 21: The Effects of Changes in Foreign Exchange Rates.

### 3.13 Leases

Leases in terms of which the company assumes substantially all the risks and rewards incidental to ownership are classified as finance leases. Upon initial recognition, the leased asset is measured at an amount equal to the lower of its fair value or the present value of the minimum lease payments. The interest rate implicit in the lease has been used to calculate the present value of minimum lease payments. Subsequent to initial recognition, the asset is accounted for in accordance with the accounting policy applicable to that asset.

### 3.14 Earnings Per Share (EPS)

The company presents basic and diluted (when dilution is applicable) Earnings Per Share (EPS) for its ordinary shares. Basic EPS is calculated dividing the profit or loss attributable to ordinary shareholders of the Company by the weighted average number of ordinary shares outstanding during the period, adjusted for the effect of change in number of shares for bonus issue, share split and reverse split. Diluted EPS is determined by adjusting the profit or loss attributable to ordinary shareholders and the weighted average number of ordinary shares outstanding and for the effects of all dilutive potential ordinary shares. However, dilution of EPS is not applicable for this financial statements as there was no dilutive potential ordinary shares during the relevant periods.

### 3.15 Events after the reporting period

Events after the reporting period that provide additional information about the Company's position at the date of statement of financial position or those that indicate the going concern assumption is not appropriate are reflected in the financial statements. There are no material events that had occurred after the reporting period to the date of issue of these financial statements, which could affect the figures presented in the financial statements.

### 3.16 Provision

A provision is recognized on the date of financial position if, as a result of past events, the company has a present legal obligation that can be estimated reliably and it is probable that an outflow of economic benefits will be required to settle the obligation.

### 3.17 Employee Benefit

#### Gratuity

Regular/confirmed employees of the Company who have completed minimum 5 (five) years of continuous service from the date of joining are eligible to gratuity payment at the time of separation of employment with the Company.

### 3.18 Interest Income

Interest income is accrued at the applicable interest rate on bank deposits in the period in which it is incurred.

### 3.19 Finance costs

Finance costs comprise interest expenses on bank loan and other borrowings and are recognised as expenses in the period in which they are incurred using applicable interest rate.

### 3.20 Revaluation surplus

This represents the difference between book value and revalued amount of land and land development. As per IAS 16: Property, Plant and Equipment, revaluation is done with sufficient regularity to ensure that the carrying amount does not differ materially from that which would be determined using fair value at the end of the reporting period. The fair value of land was determined from market-based evidence by an appraisal as on 31 December 2013 by S.F. Ahmed & Co. which is a professionally qualified valuer.

### 3.21 Impairment

#### (a) Financial assets

Accounts receivable and other receivables are assessed at each reporting date to determine whether there is any objective evidence of impairment. Financial assets are impaired if objective evidence indicates that a loss event has occurred after the initial recognition of the asset and that the loss event had a negative effects on the estimated future cash flows of that asset, that can be estimated reliably. Objective evidence that financial assets are impaired can include default or delinquency by a debtor, indications that a debtor or issuer will enter bankruptcy, etc.

#### (b) Non-financial assets

An asset is impaired when its carrying amount exceeds its recoverable amount. The company assesses at each reporting date whether there is any indication that an asset may be impaired. If any such indication exists, the company estimates the recoverable amount of the asset. The recoverable amount of an asset is the higher of its fair value less costs to sell and its value in use.

Carrying amount of the assets is reduced to its recoverable amount by recognizing an impairment loss if, and only if, the recoverable amount of the asset is less than its carrying amount. Impairment loss is recognized immediately in profit or loss, unless the asset is carried at revalued amount. Any impairment loss of a revalued asset is treated as a revaluation decrease.

### 3.22 Workers' profit participation fund and welfare fund

The company provides 5% of its profit before charging such expenses as a contribution to profit participation and welfare funds in accordance with The Bangladesh Labour (amendment) Act 2013.

### 3.23 Comparative information

Comparative information has been disclosed in respect of year 2016-2017 for all numerical information of the financial statements and also the narrative and descriptive information when it is relevant for understanding of the current period's financial statements. Last year figures have been rearranged where considered necessary to conform to current years presentation.

### 3.24 General

- i. Figures have been rounded off to the nearest Taka.
- ii. Previous year's figures have been rearranged wherever considered necessary to conform to the current year's presentation.

38. Financial risk management

The management of the company has overall responsibility for the establishment and oversight of the company's risk management framework. The company's risk management policies have been established to identify and analyse the risks faced by the company, to set appropriate risk limits and controls, and to monitor risks and adherence to limits. Risk management policies, procedures and systems are reviewed regularly to reflect changes in market conditions and the company's activities. The company has exposure to the following risks from its use of financial instruments.

- \*Credit Risk
- \*Interest Rate Risk
- \*Currency Risk
- \*Liquidity/funding risk
- \*Market risk

38.1 Credit risk

Credit risk is the risk of a financial loss to the company if a client or counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from the company's receivables.

As the company is involved in 100% export oriented business, all the sales are made against Letter of Credit (L/C). L/Cs provide guarantee against credit sales and minimise the credit risk to an acceptable level. Bills receivable arises due to the time difference between submission of bills to the bank for collection of proceeds and actual realisation of the proceeds.

The carrying amount of financial assets represents the maximum credit exposure. The maximum exposure to credit risk at the reporting date was:

		30.06.2018 Taka	30.06.2017 Taka
Accounts receivables	(Note: 8)	558,249,089	835,188,043

### 38.2 Liquidity risk

Liquidity risk is the risk that the company will not be able to meet its financial obligations as they falls due. The company's approach to managing liquidity (cash and cash equivalents) is to ensure, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the company's reputation. Typically, the company ensures that it has sufficient cash and cash equivalents to meet expected operational expenses, including financial obligations through preparation of the cash flow forecast based on time line of payment of the financial obligation and accordingly arrange for sufficient liquidity/fund to make the expected payment within due date.

The following are the contractual maturities of financial liabilities of the company:

#### As on 30 June 2018

### 38.3 Market risk

Market risk is the risk that any change in market prices, such as foreign exchange rates and interest rates will affect the company's income or the value of its holdings of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters.

In the past, in some occasion large buyers of different RMG exporters has decided to withdraw business, or has become bankrupt or were subject to regulatory injunction from importing from Bangladesh, creating a strong impact on the exporter. For EKCL single buyer concentration is not a major issue and they have longstanding relationship with overseas buyers. All of them regard EKCL as their global partners and the relationship can only be disrupted if EKCL fails to perform its commitments. Also, because of its dominant position in the export market it is always sought after by many buyers.

### 38.4 Currency risk

The company is exposed to currency risk on receiving of sales proceeds and payments made for raw materials purchase as well. Maximum of the company's foreign currency transactions are denominated in USD.

#### i) Exposure to currency risk

The company's exposure to foreign currency risk was as follows based on notional amounts:

### 38.5 Business Risk

Managing Compliance – Currently RMG buyers specially the large buyers are very demanding and constantly tightening the compliance criteria. EKCL has been in the forefront of compliance among the RMG exporters in the county. They have compliant plants with effluent water treatment facility, childcare facility, adequate ventilation, spacious infrastructure lay out, etc. Till now they were able to meet all the compliance challenge in their 30 year plus business experience and is likely to do so in the coming years. EKCL mitigates compliance risk since it is WRAP certified and passed other audits from Department of Environment (DOE) and overseas buyers.

Achievement of sales volume – Historically, EKCL has been successful to achieve its sales target after expansion as most of its expansions are planned after receiving order indications from its buyers.

### 38.6 Interest Rate Risk

EKCL is enjoying banks finance in the form of working capital as well as term loan. As a bank fund borrower, the entity has to pay a significant amount of loan interests and charges. Bangladesh Bank has moved to remove the interest rate ceiling on lending in the wake of a massive liquidity crisis in the financial market letting the price to be determined by functioning of demand-supply interaction. This measure may invite interest rate instability, which may create volatility in the profitability of business like EKCL. It is the company risk of gain or losses on assets and liabilities due to changes in interest rates.

**Exposure of Interest Rate Risk**

Fixed Rate Bearing

Term Loan

Short Term Loan

30.06.2018 Taka	30.06.2017 Taka
725,473,970	550,597,739
768,567,488	1,038,550,696

**38.7 Operation Risk**

Technology is a continuous process of development. Innovation of new and cost effective technology may obsolete existing technology, which may cause negative impact on the business. The project is equipped with good machineries and technology to cope with the modern textile world. The management both in head office and production premises seem to be competent and maintain the standard level of quality and to run the operations effectively. However, in order to reduce the operational risk, the company is yet to ensure an external control mechanism. The company has minimum exposure to operational risk.

**38.8 Raw Material Supply Risk**

The company receives yarn, dyes & chemicals both from local as well as foreign suppliers. Import based supplies are likely to be affected by any uncontrollable event or country risk to transaction or political barrier. Since inception the company did not face any such uncontrollable events so far because of maintaining good supply chain relationship with the suppliers of raw materials and in exceptional cases, it is confident to make alternative arrangement at shorter notice.

**38.9 Exchange Rate Risk**

Exchange rate risk arises from currency fluctuation in international trade. If Bangladeshi Taka is devalued and/or foreign currency revalued than the price of imported raw materials will go up which will decrease the overall profit margin. As the company is dependent upon the import for yarn, dyes, chemicals & accessories and in future it will be the same, volatility of exchange rate will have an impact on profitability of the company. For last couple of years, Bangladeshi Taka found carrying floated value and expected to follow the same which expose the company to significant exchange rate risk.

**38.10 Power Generation Risk**

The industrial bases of Bangladesh are mainly aided by natural gas-driven power generation which causes disruption occasionally and the weaving industry is not an exception. Smooth availability of gas will ensure the maximum functioning of the machineries. EKCL uses natural gas to produce power from captive power plant. Currently a circular from government has emerged to arrange alternate of gas due to recent acute gas crisis. The company is connected with 15 PSI gas line and currently does not have any problem of gas pressure. So other things being constant, EKCL does not foresee significant risk for power generation.

**39. Contingent liabilities**

The business of the company is exempted on VAT payment on supplier payment as 100% export oriented company (SRO#170/Law/2000/269 Mushok dated 08.06.2009) but at the time of assessment of the company income tax for the assessment year 2014-15, the deputy commissioner of taxes (DCT) disallowed supply of maintenance items, spareparts, and consumable items of Tk.10,376,717 & Tk.6,786,150 and Tk.8,708,236 respectively. Salary and wages disallowed u/s 30(a), 30(e) and 30(i) though salary paid through banking channel above Tk.15,000 & required income tax deducted as well as deposited into government exchequer. But a demand note had been issued by DCT for an amount of Tk.14,769,609 without considering advance tax payment against vehicle Tk. 808,500 & FDR interest Tk.1,537,324 and import stage Tk.740,843.

Subsequently, the company has filed an appeal to commissioner (Appeal) dated 01.06.16, Appeal # 812/Cir-178/Tax:appeal:9/2015-16 which is settled.
